everything you need to know about beginner French grammar. Straight-to-the point explanations: No extra fluff and frills, the lessons are straightforward and focus more on the rules rather than the exceptions. Short daily lessons designed to help you create a learning habit: Spend just 30 minutes every day for 30 days to form an effective learning habit. Clear and concise grammar discussions written in a conversational tone: Difficult grammar concepts are broken down and simplified with brief yet engaging explanation. An embedded workbook with 300+ grammar exercises: Challenge yourself and reinforce your comprehension by doing the exercises after each lesson. Audio for pronunciation and listening practice: Improve your listening and pronunciation skills in French by listening to the audio narrated by a native French speaker. If you're tired of your usual boring French textbook, grab your copy of this book and start learning French grammar the un-boring way today!

Integrated approach to language instruction develops student's listening, speaking, reading and writing skills with a variety of

print and technology resources.

The author of the acclaimed Pliocene Quartet offers an in-depth guide to a saga that “has most closely matched J. R. R Tolkien's achievement” (San Francisco Chronicle). With its richly imagined universe and large cast of finely-drawn characters, Julian May's Saga of Pliocene Exile has won devoted fans across the globe who find new layers, details, and ideas with each reading. In the words of Isaac Asimov's Science Fiction Magazine: “Julian May has made a new and fresh masterwork in the genre and has irrevocably placed herself among the great of fantasy and science fiction.” Covering all four novels—The Many-Colored Land, The Golden Torc, The Nonborn King, and The Adversary—this reading guide offers a plot chronology, the author's original maps, a descriptive listing of all the characters, and three delightful interviews with May herself. Beyond that, it gives the reader a chance to explore further the surroundings of a world six million years in the past. The glossary gives information on metapsychology, on the futuristic science of the Galactic Milieu, and on the exotic world of the Tanu and Firvulag. In all, A Pliocene Companion is a must for followers of the Saga.
