"Project Management is a fast-moving and increasingly widespread discipline with record numbers of practitioners now gaining professional qualifications. Delivering projects on time and within budget is critical to business success and the skill, therefore, is highly valued in graduates and managers alike. Highlights of this fifth edition include: Brand new chapters on Planning and scheduling, Advanced Project Thinking (APT), Procuring, contracting, and working with supply chains. New scene-setting vignettes open each chapter, such as the Range Rover Sport and the Nobel Peace Prize to Nadia Murad and Denis Mukwege Project Management in Practice case studies at the end of each chapter include Heathrow Terminal 5 and the Rescue of Crossrail New and revised Real World examples throughout all chapters A critical appraisal of project management, drawing on recent research and new and original models and frameworks Project Management is written for students on undergraduate, masters and MBA programmes, as well as for corporate training and for professionals practising in a dynamic and fast-developing field"--

Project management as a discipline has experienced near-exponential growth in its application across the business and not-for-profit sectors. This original, authoritative guide provides both practitioner and student researchers with a complete guide to research practice on project management. In Designs, Methods and Practices for Research of Project Management, Beverly Pasian has brought together original chapters from a veritable who's who of project management research including authors such as Harvey Maylor, Christophe Bredillet, Derek Walker, Miles Shepherd, Janice Thomas, Naomi Brookes and Darren Dalcher. The collection looks at research strategy, management, methodology, techniques as well as emerging topics such as social network analysis. The 38 chapters offer an international perspective with examples from a wide range of project management applications; engineering, construction, mega-projects, high-risk environments and social transformation. Each chapter includes tips and exercises for the research student, as well as a complete set of further references.

What is business and management research and why is it important?How do I go about choosing a research topic? How should I design my research project and what impact does choosing quantitative orqualitative research have?How do I carry out successful research and interpret the results?What is the best way to report my findings? These are only a few of the most common student questions that this fully-updated second edition of Researching Business and Management will answer. With a focus that is fresh andapplied, this textbook goes beyond the theory to demonstrate how to actually do research. The unique 4-Ds model – Define, Design, Do and Describe – offers a definitive guide to every stageof your research project, while the author's friendly style makes the text engaging and sometimes complex issues accessible. The new edition has been fully updated and revised and includes: Unique 4-Ds model – Define, Design, Do and Describe – for a definitive 'how-to' guide for your research project Examples from successful companies showing how they conduct and apply their research in the real world Refreshed pedagogical material, including activity boxes and Student Research in Action sections, designed to engage the reader and improve learning outcomes Dedicated chapters on research ethics and avoiding plagiarism. This is an ideal textbook for undergraduate, postgraduate and MBA students studying Research Methods, and essential reading for any business student doing a research project.

'Operations Management: policy, practices, performance improvement' is the latest state-of-the-art approach to operations management. It provides new cutting edge input into operations management theory and practice that cannot be found in any other text. Discussing both strategic and tactical inputs it combines and balances service and manufacturing operations. * Cutting edge techniques accompanied by brand new case studies * Challenges standard approaches * Comprehensive coverage of strategic supply management * Critical sample questions to aid discussion * Reading lists and articles to support learning * Additional lecturer support material This outstanding author team is from the Operations Management Group at the University of Bath. Their expertise and knowledge is apparent in the text, and they bring to it their original research and experience in the field of operations management.

As an industry, interactive is different. The work entails elements of software development, marketing, and advertising, yet it's neither purely technical nor traditional "agency" work. Delivery methods are different, and because the industry is relatively new, the gap in understanding between the clients buying the work and the teams building it is often wide. Enter the geek girls guide. Nancy Lyons and Meghan Wilker don't just tell you how to deliver digital work, they demonstrate how to think about it. Interactive Project Management: Pixels, People, and Process helps clients, agencies, and industry professionals better understand the critical role of interactive project management, and presents a collaborative, people-focused approach to delivering high-quality digital work. In this book, the authors: Define the unique characteristics of interactive projects Explain the importance of emotional intelligence in the workplace Discuss communication techniques that help teams work together more efficiently Outline a process and specific deliverables that clarify how to think about critical aspects of a project Provide questions, tasks, tips, and advice that effectively move teams from initiation to launch

Airline Operations and Management: A Management Textbook is a survey of the airline industry, mostly from a managerial perspective. It integrates and applies the fundamentals of several management disciplines, particularly economics, operations, marketing and finance, in developing the overview of the industry. The focus is on tactical, rather than strategic, management that is specialized or unique to the airline industry. The primary audiences for this textbook are both senior and graduate students of airline management, but it should also be useful to entry and junior level airline managers and professionals seeking to expand their knowledge of the industry beyond their own functional area.

Digital and Social Media Marketing: A Results-Driven Approach is an exciting new industry-led, research-informed and results-driven guide to digital commerce. Its examples draw from SMEs and from Europe to offer a unique perspective for those learning about digital marketing and, having been developed in close collaboration with the Search Engine Marketing Trade Association (SEMTA), it is a reliable source of prevailing industry standards for practitioners at the cutting edge of their trade. Unlike other digital marketing texts, this accessible textbook gives special consideration to the ethical challenges raised by an increasingly digital world. Equally unique is the book's Digital Business Maturity Model, which offers organisations a clear roadmap for understanding their relative levels of technology adoption. Embracing the true spirit of Digital and Social Media Marketing, the book will be the first of its kind in this field with digital learning materials, case studies and exercises available in a supporting Massive Open Online Course (MOOC). The MOOC will enhance learners' experience and create an interactive international learning community. This book will provide a hands on, accessible and user friendly platform to turn skills and knowledge into strategic advantage. Ideal for postgraduate learners, instructors interested in providing a unique and up-to-date learning experience and for SMEs and practitioners aiming to be at the cutting edge of Digital and Social Media Marketing.

Innovation Project Management Handbook provides organizational leaders and decision-makers with a cadre of agile, disciplined, and transformational tools and processes for improving innovation opportunity outcomes and achieving sustained innovation project success.
