Many new homeowners are choosing to paint their dated kitchen cabinets rather than replace them. It's less expensive and faster since you don't need to pay for new cabinets, rip up/haul away nor sacrifice your kitchen for 2-3 month. I'm going to show you how to paint your cabinets the right way. I've found that there is a LOT of poor and misleading info in the Big Box stores and on the internet are incorrect. They make it sound easier than it really is, imply that you can paint with just one coat (and this is ABSOLUTELY WRONG), and recommend inferior products and methods. I will share the 2 best methods to paint your cabinets, as well as the tools and materials so that your painting job will last longer than just a few weeks. You can choose to DIY this job or hire a professional. I just want you to be well informed before you start or know the right questions to ask your potential contractor.
