The inspection of insulation and ventilation systems is particularly challenging because so little of the systems can be seen. This text discusses how insulation, air/vapor barriers and ventilations systems work to keep houses comfortable and structurally sound. Basics of heat transfer and vapor movement are covered first to lay the groundwork for discussion of insulation and ventilation materials, systems, and applications. Thorough treatment of venting living spaces is provided, including balanced ventilation systems and heat recovery ventilators (HRV's).

For home buyers and home sellers. Here is the first how-to that addresses the needs of both buyers and sellers, making it the perfect companion to the bestselling *The Complete Idiot's Guide to Buying and Selling a Home*. The buyer will depend on this guide to determine whether a house is worth buying. The seller will need it to determine which repairs are necessary before listing or signing anything. Readers will learn to troubleshoot all areas of a home, including its structure and foundation, windows and doors, plumbing, heating and air conditioning, insulation, electrical systems, and the roof, just to name a few.

This NHIE Manual was developed by the Examination Board of Professional Home Inspectors and is based on the most recent Role Delineation Study (RDS). The RDS surveyed thousands of practicing Home Inspectors to determine the types of services they provide and the components they inspect. In addition to the technical information there are 100 sample questions that mirror the National Home Inspection Exam. This Inspection Manual together with the NHIE Study Guide, prepares the new inspector for the National Home Inspection Exam and also makes a great technical reference for the experienced Home Inspector.

Discusses the reckless annihilation of fish and birds by the use of pesticides and warns of the possible genetic effects on humans.

NULL

A student study guide to accompany the principle work, 'The American economy: how it works and how it doesn't'.

All fourth grade students in NJ are required to pass the NJ ASK (Assessment of Skills and Knowledge) Grade 4 Science assessment test. REA's test prep gives fourth graders all the information they need to succeed on this important high-stakes exam. /Completely aligned with the core curriculum standards of the NJ Department of Education, the test prep includes a student-friendly, targeted review of the science skills tested on the exam, including: life science, physical science, and earth science. /Our focused lessons appeal to students at all learning levels. Each lesson explains science topics in language suitable for the fourth grade level, while numerous drills strengthen abilities. Color icons throughout the book highlight important questions and study tips. /The book also includes two full-length practice tests with detailed explanations of answers that allow students to test their knowledge and focus on areas in need of improvement.
