Originally published in 1967, this book discusses economic and constitutional developments and religious history in relation to their political consequences. Political theory is treated in two sections: one is devoted to the ideas current from 1789 to the ' revolutionary year ' of 1848, and another to those of the Bismarckian era. The author used archival material to verify her analysis of such complicated questions as the operation of the Holy Roman Empire and Bismarckian foreign policy. Investigating the disappearance of the old Germany, in which medieval institutions still survived the book shows that the unification of Germany was not the final climax of German history, it appeared, at the time, to be.

Clinical Fluid Therapy in the Peri-Operative Setting brings together some of the world's leading clinical experts in fluid management to explain what you should know when providing infusion fluids to surgical and critical care patients. Current evidence-based knowledge, essential basic science and modern clinical practice are explained in 25 focused and authoritative chapters. Each chapter guides the reader in the use of fluid therapy in all aspects of peri-operative patient care. Guidance is given on the correct selection, quantity and composition of fluids required as a consequence of the underlying pathology and state of hydration of the patient, and the type and duration of surgery. Edited by Robert G. Hahn, a highly experienced clinician and award-winning researcher in fluid therapy, this is essential reading for all anaesthetists, intensivists and surgeons.
