This rousing account is the exclusive, authorized memoir of international rights icon Mukhtar Mai, whose courageous struggle for justice earned her acclaim as "the Rosa Parks of Pakistan."

In June 2002, journalists throughout the world began to hear of the gang rape of a Pakistani woman from the impoverished village of Meerwala. The rape was ordered by a local clan known as the Mastoi and was arranged as punishment for indiscretions allegedly committed by the woman's brother. While certainly not the first account of a female body being negotiated for honor in a family, and (sadly) not the last, journalists and activists were captivated. This time the survivor had chosen to fight back, and in doing so, single-handedly changed the feminist movement in Pakistan. Her name was Mukhtar Mai, and her decision to stand up to her accusers was an act of bravery unheard of in one of the world's most adverse climates for women. By July 2002, Mai's case was headline news in Pakistan and under international scrutiny, the government awarded her the equivalent of 8,500 U.S. dollars in compensation money (a historic settlement), and her attackers were sentenced to death. Mukhtar Mai went on to open a school for girls in an effort to ensure that future generations would not suffer, as she had, from illiteracy. In this rousing account, Mai describes her experience and how she has since become an agent for change and a beacon of hope for oppressed women around the world. Timely and topical, In the Name of Honor is the remarkable and inspirational memoir of a woman who fought and triumphed against exceptional odds.

Citing the thousands of "honor based" murders that claim the lives of some five thousand women in the U.S. and throughout the world, a controversial exposé reveals the ways in which women are being subjected to violent "punishments," often at the hands of family members, for the purpose of restoring a family's reputation.

The crew of the USS Enterprise arrive on a remote Klingon planet and soon discover that the crew of the USS Gagarin, which was viciously attacked by Klingons ten years ago, have been held prisoner there ever since. With the assistance of the brave and honourable Koloth -- the Klingon captain from the viewer-favourite original series episode, "The Trouble with Tribbles" -- Captain Kirk sets out to rescue them, knowing that, should he fail, the Federation will deny all knowledge of his mission. What's more, powerful factions in the Klingon government are determined not to give up the prisoners, even if it means obliterating every last one of them -- and anyone who attempts to save them! Undeterred by the odds that are stacked against him, Kirk proceeds with his audacious plan. In the course of the rescue he discovers the secrets behind many Klingon mysteries -- mysteries that Star Trek fans have been waiting to find out. Why, for instance, did the Klingons originally encountered by Captain Kirk appear physically different to those encountered by later Starfleet crews? For the first time IN THE NAME OF HONOR answers the question that has puzzled the Star Trek universe for years.

This rousing account is the exclusive, authorized memoir of international rights icon Mukhtar Mai, whose courageous struggle for justice earned her acclaim as "the Rosa Parks of Pakistan."

Honour killing, as it is widely understood, is the cold-blooded murder of a woman or a man involved with her, by the male members of her household in order to cleanse the reputation of the family, clan, community or tribe. This violent tradition in the name of religion, custom and culture continues to be carried out in a significantly large part of the world. The majority of people still believe that honour killings happen for reasons such as marriage from choice or a love affair of a kinswoman, rape, a demand for divorce from a woman, or the birth of a female child, all of which are perceived as bringing shame on the family. However, current research on honour killing suggests that there are a number of intriguing and very cleverly knitted plots of jealousy, greed, violence and murder which show that, in the name of honour, various other purposes are being served and people are killed in ways which give the impression that they are honour killings. By collecting data from people involved in such situations, this book opens a Pandora ' s box, showing that such killings are carried out not to assuage the hurt honour of a patriarchal society, but to serve a variety of malign intentions, goals and agendas. It will serve to let the world comprehend the phenomenon of honour-related violence where culture and crime unite under the umbrella of highly discriminating laws against women. This book consists of twenty-six testimonies from those involved in honour killings, bringing together interviews with killers, victims and the falsely accused.
