In the mid-1910s, what historians call the "Golden Age of Chinese Capitalism" began, accompanied by a technological transformation that included the drastic expansion of China ' s "Gutenberg revolution." Gutenberg in Shanghai is a brilliant examination of this process. It finds the origins of that revolution in the country ' s printing industries of the late imperial period and analyzes their subsequent development in the Republican era. Under diverse social, political, and economic influences, this technological and cultural revolution saw woodblock printing replaced with Western mechanical processes. This book, which relies on documents previously unavailable to both Western and Chinese researchers, demonstrates how Western technology and evolving traditional values resulted in the birth of a unique form of print capitalism whose influence on Chinese culture was far-reaching and irreversible. Its conclusion contests scholarly arguments that view China ' s technological development as slowed by culture, or that interpret Chinese modernity as mere cultural continuity. A vital reevaluation of Chinese modernity, Gutenberg in Shanghai will appeal to scholars of Chinese history. Likewise, it will be enthusiastically received by specialists in cultural studies, political science, sociology, the history of the book, and the anthropology of science and technology.

"Terrifying... Eloquent... A heart-rending drama of human yearning." --New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the dries and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.
