Whether it's geared up for racing, tricked out as a pit bike, used to teach kids how to ride, or simply to take a spin, the small motorcycle takes as much care as its full-size counterpart. This book, by one of the world's foremost off-road motorcycle builders, tells you everything you need to know to keep your mini-motocross or playbike running smoothly, safely, and, of course, in style. This comprehensive handbook, the first of its kind, covers a variety of models--mini motocross racers from 50cc to 100cc, and small playbikes from 50cc to 250cc. A complete buying guide helps readers determine which of the small motorcycles best suit their needs. The book provides clearly detailed information on maintenance schedules, procedures, and the tools, materials, and space you'll need. Going that extra mile, Forward Motion's Eric Gorr offers model-specific suggestions for modifying the bikes to improve performance on and off the racetrack. He also includes sample builds of some of the most popular race and playbikes on the market.

A dazzling tribute to the KTM X-Bow car – the world's first production sports car with a full

carbon composite monocoque. To fully understand and enjoy this car, it can, and should be appreciated on many different levels: a racing car for the road, and a road car that can excel on the track; its unique composition and aerodynamic qualities; its design and aesthetics. This is a car that was brought to life by the virtually unlimited monetary resources of an industrial giant, steeped in motorsport, who demanded that it be technologically cutting-edge. The car was honed to perfection by arguably the finest racing car engineers in the world, for whom "best in class" was a minimum requirement. It is an objet d'art that can race in anger, or can transport in style. It startles, it fascinates, it wins. As Mr Toad (of Wind in the Willows fame) would undoubtedly have said, it is "A Most Unusual Car!" — we are lucky that this most unusual car, the KTM X-BOW, exists in our lifetime. This book details the design and development, the build process, racing history, and what it's like to live with and maintain an X-Bow, written by joint owners and enthusiasts, with the full cooperation of the designers and developers.

Saloon (E21 Series). Petrol: 1.6 litre (1573cc), 1.8 litre (1766cc) & 2.0 litre (1990cc).
