2 Comprender la Norma UNE-ISO/IEC 27001 La seguridad no es el resultado de un proceso, es un proceso en sí mismo. Se conseguirá un nivel de seguridad aceptable en la medida en que este proceso funcione y progrese adecuadamente. No es de extrañar, por tanto, que la Norma UNE-ISO/IEC 27001 exija que se adopte un proceso para establecer, implementar, operar, monitorizar, revisar, mantener y ...

In questo libro (aggiornato nel 2019) si trattano: la sicurezza delle informazioni, i relativi processi di valutazione e trattamento del rischio (con un'ampia parte teorica bilanciata da molti esempi), i controlli di sicurezza. Il testo si basa sulle norme ISO/IEC 27001 e ISO/IEC 27002, secondo interpretazioni maturate durante i lavori di scrittura della norma stessa a cui l'autore ha partecipato. Le appendici riportano brevi presentazioni (sulla gestione degli auditor, sulla certificazione ISO/IEC 27001, sui Common Criteria e sulle FIPS 140) e delle check list (per la gestione dei cambiamenti, l'identificazione delle minacce e i contratti con i fornitori).

In the same way as the 4Ps of marketing are a fundamental principle of business theory, this book puts forward the 10Ps of Risk Management as a consistent and comprehensive approach to the subject. The 10Ps of Risk Management offers a holistic approach, bringing together all elements of risk management for managers, safety and environmental consultants, business advisers and students on occupational health and safety and environmental studies courses.

The photographs that make up this first book by renowned photojournalist Jean-Pierre Laffont serve as a powerful and provocative examination of the American dream. For nearly three decades, Laffont traveled the breadth of the United States, a true embodiment of American freedom. Documenting the country in all of its facets - from national crises and unsightly social injustices to heartfelt protest and solidarity, the photographer took full advantage of the access granted to him by the world's greatest democracy. He traveled all fifty of the United States to document a broad swath of the country's fabric, capturing America through some of its most turbulent eras. From the electric chair at Sing Sing to Women's Jello Wrestling, the Watkins Glen rock festival to the Kent State shooting protest in Washington DC, Laffont was front and centre to history as it unfolded. Never working on assignment, Laffont chased stories of his own volition with a lens that was at once compassionate, humanistic, and unflinching. Taken together, these pages tell the story of the chaotic, often painful, birth of twenty-first-century America - a place where a black president, gay marriage, and women executives have become the new norm. Photographer's Paradise reminds us of the power of the freedom of speech, as Laffont speaks truth to power through his camera lens. "This publication contains the 'Guiding Principles on Business and Human Rights: Implementing the United Nations Protect, Respect and Remedy Framework', which were developed by the Special Representative of the Secretary-General on the issue of human rights and transnational corporations and other business enterprises. The Special Representative annexed the Guiding Principles to his final report to the Human Rights Council (A/HRC/17/31), which also includes an introduction to the Guiding Principles and an overview of the process that led to their development. The Human Rights Council endorsed the Guiding Principles in its resolution 17/4 of 16 June 2011."--P. iv.

This book, with contributions by both leading scholars and industry experts, provides a coherent framework for understanding complex determinants and patterns of industry competitiveness. Divided into eight parts, it covers both quantitative and qualitative research on the following topics: technologies, economic development, and human resources in Industry 4.0; management in the digital economy; artificial intelligence and knowledge management approaches; drivers of sustainable and innovative development in corporations; resilient and competitive systems in the energy sector; compliance and anti-corruption mechanisms; and competence networks and technological integration. Thanks to its highly stimulating discussions on the determinants and patterns of industry competitiveness, this book appeals to a wide readership.

Based on his many years of first-hand experience with ISO27001, Alan Calder covers every single element of the ISO27001 project in simple, non-technical language, including: how to get management and board buy-in; how to get cross-organizational, cross functional buy-in; the gap analysis: how much you really need to do; how to integrate with ISO9001 and other management systems; how to structure and resource your project; whether to use consultants or do it yourself; the timetable and project plan; risk assessment methodologies and tools; the documentation challenges; how to choose a certification body.
