Tired of wasting hundreds of dollars on expensive wrinkle creams, drying lotions, and zit-zappers that just don't work? Well listen up, ladies. To really get gorgeous, you've got to change the way you feed your face. Cosmetics companies, women's magazines—heck, even most doctors—will swear that food doesn't affect the skin. But celebrity dermatologist Dr. Jessica Wu knows that's just not true. After years spent battling her own pimple-prone, "problem" skin (not to mention caring for some of Hollywood's most famous faces), she's learned that what you eat has everything to do with the condition of your complexion. Packed with patient testimonials and celebrity anecdotes from stars like Katherine Heigl, Maria Bello, Kimora Lee Simmons, and Lisa Ling, FEED YOUR FACE is an easy-to-follow, 28-day diet plan that will help you banish blemishes, wipe out wrinkles, shed unwanted pounds, and generally feel better—in your clothes and in your skin. Along the way, Dr. Wu will dish the dirt on her journey from Harvard Medical School to the glamorous Hollywood Hills, while offering realistic, practical beauty and diet advice for women of all ages. Want to soften your crow's-feet? Find out which foods will turn back time. Plagued by pimples? Discover the snacks that will erase stubborn blemishes. Did you know milk doesn't always do a body good? Feel a sunburn

coming on? Learn why red wine may save your skin from peeling and flaking. What does a hard-partying rock star eat for good skin? So stop thinking about food in terms of what you can't have: no butter, no red meat, no fat, and no flavor. Instead, discover the foods that will keep you feeling full and looking gorgeous. Follow the FEED YOUR FACE Diet, and you can have pizza. You can go out for Italian, indulge in Chinese takeout, and dine at The Cheesecake Factory (with the help of the FEED YOUR FACE Restaurant Guide). Because you do have the power to change your skin. All you have to do is eat.

ONE IN EVERY THREE PEOPLE LIVING IS ACTUALLY DEAD! It is a matter of historical record that during the latter part of World War II, England's top-secret Ministry of Serendipity enlisted the services of arch-magician Aleister Crowley to create a Homunculus. Why? Well that's a long story, spanning almost seven decades as it follows the life and career of Tyler, rock star, private eye - and notable for the fact that he almost saved Mankind. The cast of millions also includes ukulele maestro George Formby, Mick Jagger, Mama Cass, Elvis Presley and Lazlo Woodbine. And Tyler's brother, Andy, who impersonates animals (and who single-handedly brought about the Swinging Sixties). And a lady named Clara from Croydon, who unlocked the meta-phenomena of the Multiverse. And a corner shopkeeper from Brentford, who created a sitting room for God. And a great many living dead. Oh yes, and it also involves a monster in human form whose intention it is to turn the Earth into a Necrosphere, a planet totally devoid of life ...
