Mankiw's masterful text covers the field as accessibly and concisely as possible, in a way that emphasizes the relevance of macroeconomics's classical roots and its current practice. Featuring the latest data, new case studies focused on recent events, and a number of significant content updates, the Fourth Edition takes the Mankiw legacy even further. It offers the clearest, most up-to-date, most accessible course in macroeconomics in the most concise presentation possible.

When it comes to explaining fundamental economic principles by drawing on current economic issues and events, there is no one more effective than Nobel laureate and New York Times columnist Paul Krugman and co-author, Robin Wells. In this best-selling introductory textbook, Krugman and Wells's signature storytelling style and uncanny eye for revealing examples help readers understand how economic concepts play out in our world. Canadian co-authors Jack Parkinson and Iris Au have enhanced the text with current Canadian examples. This new edition is revised and enhanced throughout, including a much stronger array of superior online tools that are part of a complete, integrated online learning system.

Adapted by Leigh MacDonald at University of Western Ontario, each chapter in this guide begins with an overview and is followed by a set of matching exercises and multiple-choice questions under Basic Definitions. These are followed by two sets of exercises, Manipulation of Concepts and Models and Applying the Concepts and Models. This is followed by some problems for Explaining the Real World and a set of questions under the heading Possibilities to Ponder. Finally, solutions are provided for all exercises and problems.

This book presents the outcomes of the annual "Engineering Economics Week" (2020) organized by the Russian Union of Industrialists and Entrepreneurs, the Institute of Management and the Institute of Market Problems of the Russian Academy of Sciences (RAS), the South-Russian State Polytechnic University and Samara State University of Economics, and held in online format in May 2020. Focusing on the following topics: - the globalized economy and Russian industrial enterprises; development specifics and international co-operation; - state support for the real sector of the economy; - decisions in production and project management in the context of the digital economy; - big data and big challenges in production networks and systems; and - economic and social aspects of the innovation management: decision-making and control this book will appeal to scientists, teachers and students (bachelor's, master's and postgraduate) at higher education institutions, economists, specialists at research centers, managers of industrial enterprises, business professionals, and those at media centers, and development fund and consulting organizations.
