GSX-R600 (1997-2000)

XL500S (1979-1981), XL500R (1982), XR500 (1979-1980), XR500R (1981-1984), XL600R (1983-1987), XR600R (1985-1990)

The best-selling Honda ever, the long-running Honda Mini Trail, was available in a huge range of models, even within each model year. The Honda Mini Trail Enthusiast's Guidecovers all Honda Mini Trails and Z50 bikes produced between 1968 and 1999. Author Jeremy Polson begins with a brief introduction of the models that led up to the Mini Trail, and then jumps into a thorough analysis of the many models and iterations that Honda has offered through the years. Despite the worldwide popularity of Honda's best-selling model, no other Mini Trail book had been published, and the accuracy of information found on the Internet is suspect at best. For Z50 collectors and enthusiasts, this book presents facts and figures found nowhere else. In addition to the hard facts regarding each model of each year, this book is filled with many rare photos that track the evolution of the Mini Trail, and unravel its mystery.

Features: Detailed easy-to-follow format and photographs to help homeowners to learn wiring techniques and electrical safety; Includes projects to rewire lamps, install switched fans, add circuits, repair cords, install security systems and more; Non-nonsense resource outlines practical advice, code requirements, and product recommendation for replacement and new installation.

XR400R (1996-2004)

The ultimate reference for Triumph lovers and fans of British motorcycles, The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today collects all of the motorcycles from this iconic brand in a single illustrated volume. In this revised and updated edition, you'll find the all-new Bonneville lineup introduced for the 2016 model year as well as other Triumphs through 2019. Originally formed as a bicycle company in 1885, Triumph produced its first motorcycle in 1902, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time. Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today also features important non-production models and factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan should be without!
