2010. The newest flashpoint is the 'Dos Laredos,' Nuevo Laredo, Mexico connected by two bridges and a rail link to its sister city, Laredo, Texas. Nuevo Laredo: A Prelude To War follows NYC reporter Doug McKenzie whose current assignment is a double murder. Leading him into Northern Mexico and to a violence ridden drug trade that is ending. Principally payoffs from the transshipment and protection of illegal drugs north into the United States. It is being replaced by more benign payoffs made by corporations seeking access to cheap, unregulated labor markets. Elimination of the drug trade will be through a modification of the banking laws of Mexico. Essentially a buyout of the six major drug organizations. The U.S. DEA will overreact, sending in agents to Monterrey, Mexico to bring back the drug lords assembled there for the purpose of disbanding. An equally if not more violent response from Mexico and the helicopter transports will not make it back to home base...

"My mother had four daughters by four different men." There's only one way Shelby and her sisters can describe their mother: She's a sexpot. Helen Kimura collects men (and loans, spending money, and gifts of all kinds) from all over the country. Sure, she's not your typical role model, but she's also not just a pretty face and nail polish. She is confident and brave; she lives life on her own terms, and her four daughters simply adore her. These girls have been raised outside the traditional boundaries. They know how to take the back exit. They know how to dodge crazed lovers in highway car chases. They do not, however, know how to function without one another. Then suddenly they must. A late-night phone call unexpectedly shreds the family apart, catapulting the girls across the country to live with their respective fathers. But these strong-willed sisters are, like their mother, determined to live life on their own terms, and what they do to pull their family back together is nothing short of beautiful. At turns wickedly funny and insistently thought-provoking, Outside Beauty showcases Cynthia Kadohata's unerring ability to explore the bonds that bind.

When freelance computer tech Jake Landon comes to Sabrina Monroe's rescue her first day on the job, the two develop a sudden attraction that neither can ignore. While Jake sets out to win her over, Sabrina is having a hard time forgetting the humiliating outcome of her last office "romance" and wants nothing more than to focus on her budding, new career—not the attractive "IT guy." Or so she keeps telling herself. Yet, as the seductive pull of Jake's charm draws her unwittingly closer, causing tension and frustration to flare brightly between them, Sabrina is determined not to break her firm rule: never again date someone she works with. Ever. But the "rules of attraction" cannot be ignored, and Sabrina must decide if she is willing to release her inhibitions and give love a chance.

Stats whiz Kayla Moriarity knows her way around numbers and algorithms. Men, on the other hand, are unsolvable equations. Now Kayla's en route to her sister's wedding—without the fictional boyfriend she invented for her family. Fortunately, her plane comes complete with complimentary cocktails and a ridiculously hot former Marine in the seat beside her. And that's all it takes for Kayla's inhibitions to go sailing out the airlock... Cooper Shillings has soft spot for people in trouble, but he certainly wasn't expecting to land in it himself—and definitely not while getting naughty mid-air with a sexy southern belle. When he hears Kayla's predicament, however, he offers his services as a stand-in boyfriend. After all, he's heading overseas soon...and how could he refuse a little no-strings wickedness? It's the perfect plan. And all Kayla has to do is ensure her family falls for the ultimate bluff, without falling for it—and Cooper—in the process... Each book in the Shillings Agency series is STANDALONE: * Temporarily Yours * Stealing His Heart * Seducing the Princess * Taking What's His * Say You're Mine * His Best Mistake

The three pieces in Idaho Gems capture the spirit of this northwestern state. "White Pine Waltz" begins with a delicate melody in 3/4 meter inspired by the majestic western white pine, Idaho's state tree. The piece builds to a climactic middle section featuring flowing arpeggios in both hands before subsiding into a restatement of the theme. The second piece, "Craters of the Moon," paints a picture of the volcanic landscapes found in the national preserve of the same name. A repetitive chromatic figure in the lower register is combined with dissonant intervals in the upper register to capture the eerie otherworldliness of the park's lava fields. In "Snake River Rag," chromatic passages wind their way across the keyboard, inspired by the Snake River's twisted path through the Idaho countryside. "Western Gem" provides a dynamic conclusion to the suite. The piece makes full use of the keyboard with block chords and scalar passages in both hands, while a modulation in the middle section provides an additional musical challenge.

Introducing radical counter-visions of race and slavery, and probing the legal and philosophical questions raised by indenture, *The Coolie Speaks* offers the first critical reading of a massive testimony case from Cuba in 1874. From this case, Yun traces the emergence of a "coolie narrative" that forms a counterpart to the "slave narrative." The written and oral testimonies of nearly 3,000 Chinese laborers in Cuba, who toiled alongside African slaves, offer a rare glimpse into the nature of bondage and the tortuous transition to freedom. Trapped in one of the last standing systems of slavery in the Americas, the Chinese described their hopes and struggles, and their unrelenting quest for freedom. Yun argues that the testimonies from this case suggest radical critiques of the "contract" institution, the basis for free modern society. The example of Cuba, she suggests, constitutes the early experiment and forerunner of new contract slavery, in which the contract itself, taken to its extreme, was wielded as a most potent form of enslavement and complicity. Yun further considers the communal biography of a next-generation Afro-Chinese Cuban author and raises timely theoretical questions regarding race, diaspora, transnationalism, and globalization.

The third volume of the Wiley series, *Environmentally Conscious Material and Chemically Processing* focuses on environmentally preferable approaches to designing and developing material and chemical processing. The book reflects the hierarchy of design, from tools for evaluating environmental hazards of industrial materials and chemicals through to the economics of environmental improvement projects. Major topics covered include: Chemical Manufacturing, Materials substitutions, Engineering processes, products, and systems to reduce environmental impacts, approaches for evaluating emissions and hazards of chemicals and processes, Environmental regulations, Properties and fates of environmental contaminants, and others.

The Halloween plans of monster enthusiasts Nick, Carter and Angelo are thrown into turmoil when a magical amulet acquired from Nick's voodoo queen aunt turns Nick into a zombie and prompts an uproarious effort to break the curse. By the author of the *Far World* series. 35,000 first printing.

During the course of the last two decades, the health effects of tea and its catechins have been documented in numerous scientific studies and the scientific basis of these effects has been elaborated. Professor Kuroda and Dr. Hara provide in this volume a translation of a thorough and extensive book published earlier (in Japanese), which will be of considerable interest to scientists working in the field, and to members of the general public interested in natural ways of maintaining health. Both authors are themselves eminent researchers with extensive experience. Dr. Kuroda is best known for his publications employing tissue cultures. Dr. Ham has published numerous research papers on the health effects of green tea and its catechins. This book provides a comprehensive overview of the historical use of green tea in Japan and elsewhere, followed by a description of the many disease conditions against which these teas have preventive (protective) effects. Of particular interest to "senior citizens" is the chapter on the ability of tea components to ameliorate a wide range of age-related diseases including cancer, arteriosclerosis, and various forms of senile dementias. For scientists and others interested in infectious diseases caused by bacteria and viruses, a chapter dealing with the ability of tea components to inhibit these organisms will be of special interest.

Vertical antennas are everywhere--on cell phones, broadcast towers and portable radios. You'll also see them on the roofs, towers and vehicles from Altoona to Australia. And for good reason! Here are some top-notch performers from ARRL publications, brought together in one book. Vertical antenna theory and modeling, VHF and UHF, HF, directional arrays, radials and ground systems, and more.
