For more than 30 years Moving the Earth has been the standard reference on every type of excavation, hauling, & grading equipment, along with the different jobs & ways in which machines are used. Created specifically for contractors, foremen & operators, this big, third edition contains new sections on lasers, automatic grading machinery, paving with asphalt, concrete & soil cement, blacktop manufacture, hydraulic systems & excavators, hydrostatic drives, controlled blasting, chain saws, tree chippers & cutters, & much more. Over 3,200 individual drawings, photos & graphs make every description & procedure crystal clear.

Updated to reflect methods used according to current requirements and regulations. The first 11 chapters discuss the work itself and the basic ways to do it, the machines and operation techniques, the problems that arise, the application of different types of equipment, and costs and management. The next 10 chapters focus on the machines themselves and operating techniques. From site preparation to blasting and tunneling, pneumatic drills to the largest power shovels, it covers every step of every kind of excavating project and all the practical aspects of using the machines and vehicles involved. The 5th edition is being directed to include the latest in equipment and operating techniques and safety methods.
