"Extraordinary. . . . Berger is a hero of biology who deserves the highest honors that science can bestow."—Tim Flannery, *New York Review of Books* On the Tibetan Plateau, there are wild yaks with blood cells thinner than those of horses' by half, enabling the endangered yaks to survive at 40 below zero and in the lowest oxygen levels of the mountaintops. But climate change is causing the snow patterns here to shift, and with the snows, the entire ecosystem. Food and water are vaporizing in this warming environment, and these beasts of ice and thin air are extraordinarily ill-equipped for the change. A journey into some of the most forbidding landscapes on earth, Joel Berger's *Extreme Conservation* is an eye-opening, steely look at what it takes for animals like these to live at the edges of existence. But more than this, it is a revealing exploration of how climate change and people are affecting even the most far-flung niches of our planet. Berger's quest to understand these creatures' struggles takes him to some of the most remote corners and peaks of the globe: across Arctic tundra and the frozen Chukchi Sea to study muskoxen, into the Bhutanese Himalayas to follow the rarely sighted takin, and through the Gobi Desert to track the proboscis-swinging saiga. Known as much for his rigorous, scientific methods of developing solutions to conservation challenges as for his penchant for donning moose and polar bear costumes to understand the mindsets of his subjects more closely, Berger is a guide par excellence. He is a scientist and storyteller who has made his life working with desert nomads, in zones that typically require Sherpas and oxygen canisters. Recounting animals as charismatic as their landscapes are extreme, Berger's unforgettable tale carries us with humor and expertise to the ends of the earth and back. But as his adventures show, the more adapted a species has become to its particular ecological niche, the more devastating climate change can be. Life at the extremes is more challenging than ever, and the need for action, for solutions, has never been greater.

"A can't-put-it-down modern Western." —Kirk Siegler, NPR Longlisted for the PEN/ESPN Award for Literary Sports Writing *The Last Cowboys* is Pulitzer Prize-winning reporter John Branch's epic tale of one American family struggling to hold on to the fading vestiges of the Old West. For generations, the Wrights of southern Utah have raised cattle and world-champion saddle-bronc riders—many call them the most successful rodeo family in history. Now they find themselves fighting to save their land and livelihood as the West is transformed by urbanization, battered by drought, and rearranged by public-land disputes. Could rodeo, of all things, be the answer? Written with great lyricism and filled with vivid scenes of heartache and broken bones, *The Last Cowboys* is a powerful testament to the grit and integrity that fuel the American Dream.

Through this fascinating story we experience the adventure, the painstaking work, the magic, the excitement and the awe through the eyes of the "tomb raider" himself, archaeologist Howard Carter. This book tells the story of one of the greatest archeological discoveries ever, the discovery of the intact tomb of the 18th Dynasty Pharaoh, Tutankhamun (colloquially known as "King Tut" and "the boy king"), in November 1922.

*Marketing and Managing Tourism Destinations* is a comprehensive and integrated introductory textbook covering both destination marketing and destination management in one volume. It focuses on how destination management is planned, implemented and evaluated as well as the management and operations of destination management organizations (DMOs), how they conduct business, major opportunities, challenges and issues they face to compete for the global leisure and business travel markets. This second edition has been updated to include: • A new chapter on visitor management that includes a section on crisis and disaster management • New material on destination leadership and coordination • New and revised content on digital marketing • New and updated international case examples throughout to show the practical realities and approaches to managing different destinations around the world. It is illustrated in full colour and packed with features to encourage reflection on main themes, spur critical thinking and show theory in practice. Written by an author with many years of industry practice, university teaching and professional training experience, this book is the essential guide to the subject for tourism, hospitality and events students and industry practitioners alike.

This lush book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals—especially those that are endangered. His powerful message, conveyed with humor, compassion, and art—to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits— from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the eloquent prose of veteran wildlife writer Douglas Chadwick, this book presents a thought-provoking argument for saving all the species of our planet.

'Rosie's Magic Horse' is an adventure like no other - ice-lolly mountains by the sea, caskets of gold, and pirates foiled by a stickling ice-cream van

*If I Had a Horse* is an inspiring picture book with simple text and gorgeous, impressionistic artwork from acclaimed author-illustrator Gianna Marino about a girl imagining what life would be like with a horse.

"Profiles of 60 parks--from battlefields to national seashores--administered by the National Park Service, highlighting their diverse appeal and available outdoor activities. A brief glimpse is given of 29 additional parks, including the newly created Indiana Sand Dunes."

A testament to inspirational women throughout literature, Erin Blakemore's exploration of classic heroines and their equally admirable authors shows today's women how to best tap into their inner strengths and live life with intelligence, grace, vitality and aplomb. This collection of unforgettable characters—including Anne Shirley, Jo March, Scarlett O'Hara, and Jane Eyre—and outstanding authors—like Jane Austen, Harper Lee, and Laura Ingalls Wilder—is an impassioned look at literature's most compelling heroines, both on the page and off. Readers who found inspiration in books by Toni Morrison, Maud Hart Lovelace, Ursula K. LeGuin, and Alice Walker, or who were moved by literary-themed memoirs like *Shelf Discovery* and *Everything I Needed to Know About Being a Girl I Learned from Judy Blume*, get ready to return to the well of women's classic literature with *The Heroine's Bookshelf*.
