The Marine Corps Stocklist of Forms, the SL-8-09993A, lists all forms
specified for use by the Marine Corps.

ought's A-7 Corsair II served the U.S. Navy for over over two decades,
and flew with distinction during the Vietnam conflict. The subsonic
A-7 was based on Chance Vought's supersonic F-8 Crusader. It boasted a
heads-up display, an inertial navigation system, and other
innovations. The plane entered service in 1966, and served in Vietnam
in late 1967. Its performance was impressive. The USS Ranger's VA-147
flew over 1,400 sorties with the loss of only one aircraft. The Air
Force purchased an advanced version, the A-7D, equipped with a more
powerful engine. The plane later flew missions over Lebanon, Libya,
Grenada, Panama, and Iraq. The last planes in U.S inventory were
retired in 1991. Originally printed by the U.S. Navy and Vought, this
handbook for the A-7 provides a fascinating glimpse inside the cockpit
of this famous aircraft. Originally classified 'restricted', the
manual was recently declassified and is here reprinted in book form.
