This textbook is designed to help medical students learn, understand and remember the essentials of this notoriously awkward subject. The text is broken up by eye-catching clinical points and summary boxes, features that demonstrate the relevance of the subject to medical practice and aid rapid learning and revision. The book also reproduces and labels full colour coronal (ie, vertical, front to back) and horizontal sections of the brain, allowing the student to learn and understand the subject without having to buy a separate atlas.

Now fully revised and updated, this

5 most common and important brain diseases of the western world (stroke, epilepsy, Alzheimer's disease, Parkinson's disease and multiple sclerosis). The book is in the same general style as the successful Crossman: Neuroanatomy with extensive colour illustrations.

An introductory textbook of neurology in the Illustrated Colour Text series, making full use of all the usual features of the series - double page spreads, short paragraphs, summary boxes, attractive use of colour etc. Clear explanation of neurological examination - often found very taxing by students. Demonstrates how to approach common neurological presentations, such as blackouts and numbness, before moving on to a comprehensive coverage of

# Read Book Neuroanatomy An Illustrated Colour Text

5 syndromes and diseases.

Concentrates on the core curriculum which the medical student really needs to know. Updated management in the light of new evidence and new drugs most notably in Parkinson's disease, epilepsy and multiple sclerosis.

Images, particularly MRI scans, updated with more modern and higher resolution images. Includes a new double-page spread on Sleep. Extra material added on giddiness to include the head thrust test and Epley's manoeuvre.

"Today's medical curriculum demands concise, well-integrated textbooks immediately relevant to the practice of clinical medicine. The third edition of Neuroanatomy: An Illustrated Colour Text is just such a textbook. Within this meticulously illustrated volume the
