The composition of short-term and medium-term adjustment measures will facilitate sufficient short-term adjustment flexibility, and be consistent with medium-term fiscal sustainability. Improving debt resolution instruments will help the banks to regain confidence in lending. Meanwhile, there is a need to consider improvements in its liquidity framework. The main factors that shaped the economic growth model in Moldova in the last decade and the risks of the current growth model are outlined. Public policies can promote growth by identifying and addressing the most binding constraints to development.

To control the migration of radioactive and hazardous wastes currently contained underground, barriers made of natural materials and man-made substances are constructed atop, and possibly around, the contaminated area. Barrier Technologies for Environmental Management provides a brief summary of the key issues that arose during the Workshop on Barriers for Long-Term Isolation. Recurring themes from the session include the importance of quality control during installation, followed by periodic inspection, maintenance, and monitoring, and documentation of installation and performance data. The book includes papers by the workshop presenters.

This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.
