If you're headed for college or university, a math placement test might be in your very near future. Schools use these tests as a tool to determine the appropriate level of math classes for incoming students. These exams are given after a student has already been accepted for admission; they are not part of the college application process.

Miller Test Prep's study guide for the ACCUPLACER is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead,

Gone are the days when the term diversity may have been used to solely signify the color of one's skin or gender. This volume examines how diverse and marginalized populations are situated within American community colleges and pushes the boundaries of our understanding of these terms. The editors and contributing authors examine various student groups as well as give voice to the marginalization felt by a group of faculty. Topics include: Examining the concept of student marginalization through a framework based on Dewey's 1916 work, *Democracy and Education* Experiences of Adult English as Second Language learners Seeing the community college environment through the eyes of student athletes Current research on lesbian, gay, bisexual, transgender, and queer (LGBTQ) community college students and the need for more Student Veterans Underprepared college students and community College faculty in correctional institutions. The volume concludes with key resources for anyone who works with or researches marginalized populations. The resources include sources for further reading, existing organizations serving various marginalized groups, and some possible funding opportunities. This is the 155th volume of the Jossey-Bass quarterly report series *New Directions for Community Colleges*. Essential to the professional libraries of presidents, vice presidents, deans, and other leaders in today's open-door institutions, *New Directions for Community Colleges* provides expert guidance in meeting the challenges of their distinctive and expanding educational mission.

The Climate Change 2007 volumes of the Fourth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC) provide the most comprehensive and balanced assessment of climate change available. This IPCC Working Group II volume provides a completely up-to-date scientific assessment of the impacts of climate change, the vulnerability of natural and human environments, and the potential for response through adaptation. Written by the world's leading experts, the IPCC volumes will again prove to be invaluable for researchers, students, and policymakers, and will form the standard reference works for policy decisions for government and industry worldwide.
