Ruy Gómez de Silva, or the prince of Eboli, was one of the central figures at the court of Spain in the sixteenth century. Thanks to his oily affability, social grace, and an uncanny knack for anticipating and catering to the desires of his prince, he rose from obscurity to become the favorite and chief minister of Philip II. From the scattered surviving sources James Boyden weaves a vivid, compelling narrative: one that breathes life not only into Ruy Gómez, but into the court, the era, and the enigmatic character of Phillip II as well. Elegantly written and highly readable, this book discovers in the career of Gómez the techniques, aspirations, and mentality of an accomplished courtier in the age of Castiglione. standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.
