Wall Street Journal best-selling author Jon Acuff reveals the steps to getting unstuck and back onto the path of being awesome. Over the last 100 years, the road to success for most everyone has been divided into five stages that mirror the decades of working life:

Your 20s are a period of Learning. This is the decade of trying a thousand things, exploring a multitude of interests, and discovering what really motivates you. Your 30s are a period of Editing. This is the decade of sorting out interests, where you discover what you really care about and who you really are. Your 40s are a period of Mastering. This is the decade of narrowing focus, honing skill sets, and becoming an expert in your field. Your 50s are a period of Harvesting. This is the decade of reaping the benefits of good decisions and enjoying the highest income-earning period in a career. Your 60s are a period of Guiding. This is the decade of mentoring, training, and encouraging others on their own road to success. Every successful person has followed these steps regardless of their occupation. But three things have changed the path to success and erased the decades associated with them: Finish lines are dead – Boomers are realizing that a lot of the things they were promised aren't going to materialize, and they have started second and third careers. Anyone can play – Technology has given access to an unprecedented number of people who are building online empires and changing their lives in ways that would have been impossible years ago. Hope is boss – The days of “success first, significance later,” have ended. A new generation doesn't want to change the world eventually; they want to change it now through the wells they kickstart in Africa and the TOMS they wear on their feet. The value system has been flipped upside down. The result is that you've got an entire generation pushing down to start over, another generation pushing up to start for the first time, and in the middle of this collision, the tools to actually change the world. Experience years now trump chronological age. And while none of the five stages can be skipped, they can be shortened and accelerated. There are only two paths in life: average and awesome. The average path is easy because all you have to do is nothing. The awesome path is more challenging, because things like fear only bother you when you do work that matters. The good news is Start gives readers practical, honest, actionable insights to be more

awesome, more often. It's time to punch fear in the face, escape average, and do work that matters. It's time to Start.

From the New York Times-bestselling author of *Quitter* and *Start* comes the definitive guide to getting your dream job. When you don't like your job, Sunday isn't really a weekend day. It's just pre-Monday. But what if you could call a Do Over and actually look forward to Monday? Starting on the first day you got paid to scoop ice cream or restock shelves, you've had the chance to develop the four elements all great careers have in common: relationships, skills, character, and hustle. You already have each of those, to one degree or another. Now it's time to amplify them and apply them in a new way, so you can call a Do Over on your career, at any age. You'll need a Do Over because you'll eventually face at least one of these major transitions: • You'll hit a Career Ceiling and get stuck, requiring sharp skills to free yourself. • You'll experience a Career Bump and unexpectedly lose your job, requiring strong relationships to survive. • You'll make a Career Jump to a new role, requiring solid character to push through uncertainty and chaos. • You'll get a surprise Career Opportunity, requiring dedicated hustle to take advantage of it. Jon Acuff's unique approach will give you the resources to reinvent your work, get unstuck, and get the job you've always wanted!

#1 Wall Street Journal bestseller! Jon Acuff, New York Times best-selling author of *Do Over*, *Quitter*, and *Start*, offers strategies for anyone who's ever wondered, "Why can't I finish what I started?" According to studies, 92 percent of New Year's resolutions fail. You've practically got a better shot at getting into Juilliard to become a ballerina than you do at finishing your goals. For years, I thought my problem was that I didn't try hard enough. So I started getting up earlier. I drank enough energy drinks to kill a horse. I hired a life coach and ate more superfoods. Nothing worked, although I did develop a pretty nice eyelid tremor from all the

caffeine. It was like my eye was waving at you, very, very quickly. Then, while leading a thirty-day online course to help people work on their goals, I learned something surprising: The most effective exercises were not those that pushed people to work harder. The ones that got people to the finish line did just the opposite— they took the pressure off. Why? Because the sneakiest obstacle to meeting your goals is not laziness, but perfectionism. We're our own worst critics, and if it looks like we're not going to do something right, we prefer not to do it at all. That's why we're most likely to quit on day two, "the day after perfect"—when our results almost always underperform our aspirations. The strategies in this book are counterintuitive and might feel like cheating. But they're based on studies conducted by a university researcher with hundreds of participants. You might not guess that having more fun, eliminating your secret rules, and choosing something to bomb intentionally works. But the data says otherwise. People who have fun are 43 percent more successful! Imagine if your diet, guitar playing, or small business was 43 percent more successful just by following a few simple principles. If you're tired of being a chronic starter and want to become a consistent finisher, you have two options: You can continue to beat yourself up and try harder, since this time that will work. Or you can give yourself the gift of done.

Using the same humor and honesty that galvanized more than a million online readers from more than 200 countries, speaker Jon Acuff brings his insightful take on Christianity to the book world with this new edition of *Stuff Christians Like*. Do you constantly find yourself toying the fine line between praying before certain types of meals and not others? This book is for you. Have you fallen in love on a mission trip, just to break up when you get home? This book is for you. Are you a unicorn of purity who ranks honeymoon sex slightly higher than the second coming of Christ? Guess what – this book is for you, too. It's time to shake off Somber Christian Syndrome and embrace the quirks of being a member of God's

kingdom. This book will teach you how to: Break up with your small group Subtly find out if your new Christian friends drink beer too Recognize the shame grenade that is a Jesus Juke Avoid a prayer handholding faux pas Say something Christian-y without looking like a snake handler From prayer shot blocks to metro worship leaders, no stone is left unturned in this hilarious look at faith. “I never knew how much I needed Jesus until I found out I was judging people who use the table of contents in their Bible. This book saved me from looking like a bad Christian.” – Sister Mary Francis, Rhode Island. “It’s such a time saver to know that my Chick-fil-a from the drive-thru comes pre-blessed. I always knew I was making the right choice by choosing the Lord’s chicken.” – Dave L., South Carolina.

What happens when a broken world slams into your comfortable life? Wrecked is about the life we are afraid to live. It’s about radical sacrifice and selfless service—how we find purpose in the midst of pain. It’s a look at how we discover fulfillment in the least likely of places. It’s about living like we mean it. It’s a guide to growing up and giving your life away, helping you live in the tension between the next adventure and the daily mundane. This book is for us—a generation intent on pursuing our life’s work in a way that leaves us without regrets. Author Jeff Goins shares his own experience of struggling as a missionary and twentysomething who understands the call to live radically while dealing with the everyday responsibilities of life. Wrecked is a manifesto for a generation dissatisfied with the status quo and wanting to make a difference.

Overthinking isn't a personality trait. It's the sneakiest form of fear. It steals time, creativity, and goals. It's the most expensive, least productive thing companies invest in without even knowing it. And it's an epidemic. When New York Times bestselling author Jon Acuff changed his life by transforming his overthinking, he

wondered if other people might benefit from what he discovered. He commissioned a research study to ask 10,000 people if they struggle with overthinking too, and 99.5 percent said, "Yes!" The good news is that in Soundtracks, Acuff offers a proven plan to change overthinking from a super problem into a superpower. When we don't control our thoughts, our thoughts control us. If our days are full of broken soundtracks, thoughts are our worst enemy, holding us back from the things we really want. But the solution to overthinking isn't to stop thinking. The solution is running our brains with better soundtracks. Once we learn how to choose our soundtracks, thoughts become our best friend, propelling us toward our goals. If you want to tap into the surprising power of overthinking and give your dreams more time and creativity, learn how to DJ the soundtracks that define you. If you can worry, you can wonder. If you can doubt, you can dominate. If you can spin, you can soar.

Do you ride the escalator-or take the stairs? No matter how you define success, it always requires one thing: self-discipline. But as popular speaker and strategist Rory Vaden explains, we live in an "escalator world"-one that's filled with shortcuts, quick fixes, and distractions that make it all too easy to slide into procrastination, compromise, and mediocrity. What seems like an easier path is really much harder in the end-and, most important, it won't take you where you want to go. How do successful people stay focused and achieve results? This lively and insightful guide presents a simple program for taking the stairs-that is, for overcoming the temptations of quick fixes and procrastination, conquering creative avoidance, and transcending personal setbacks in order to tackle the work that leads to real success. Whatever your goals are, Rory Vaden's proven approach will get you there-one stair at a time.
