These reviews perform a disservice, because they tend to convince music lovers that good sound is somehow subjective. If we conducted a controlled ... because myth and reality are often hard to ...

I: Reality and Subjectivity explains the very essence of consciousness as it evolved from its primordial appearance as life on earth, on up through evolution as the human ego, and hence, the transcendence of the ego as the spiritual Reality of Enlightenment and the Presence of Divinity. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates the reader's understanding and comprehension. The nature of consciousness is described in terms that recontextualize and simplify the spiritual process. The nonlinear reality of the enlightened sage is thereby made comprehensible to the reasoning mind.

This is the seventh book in a progressive series based on the revelations of consciousness research. It describes in detail how to discern not only truth from falsehood but also the illusion of appearance from the actual core of reality. The text explains how to differentiate perception from essence, and thereby enables the reader to resolve the ambiguities and classical riddles that have challenged mankind for centuries and baffled the best minds in history. While modern technologies have provided a plethora of new toys and conveniences, the basic problems of daily existence remain. This book provides the tools to survive and regain fundamental autonomy and inner harmony while living with the complexities of the modern world.

To truly heal is to "make whole" on all levels, in contrast to "treating" which is limited and short-sighted, as Hawkins has emphasized in his best-selling series of books on human consciousness. These holistic lectures were first presented to a variety of recovery organizations and clinicians from diverse backgrounds. The emphasis is on recovery in its fullest sense - mental, physical, psychological and spiritual. Hawkins draws from a diverse clinical background of over 50 years as a leader in the field.--

The sixth book in a progressive series by Dr. David R. Hawkins, this work finalizes and further clarifies the true nature and core of the condition termed Enlightenment. It is primarily an instruction manual for the serious spiritual devotee and reveals information only known by those who have transcended the ego to reach Divine Realization. This is the inner route from the self to the Self, and the descriptions of the progressive states are devoted to the reader's own illumination. This work will appeal to those who themselves are dedicated to the spiritual Reality of Truth as the direct pathway to God.

Reveals a breakthrough in documenting a new era of human knowledge. Only in the last decade has a science of Truth emerged that, for the first time in human history, enables the discernment of truth from falsehood. Presented are discoveries of an enormous amount of crucial and significant information of great importance to mankind. Truth and Reality, Dr. Hawkins states, have no secrets, and everything that exists now or in the past- even a thought- is identifiable and calibratable from the omnipresent field of Consciousness itself.

What blocks spiritual progress? And how do we transcend these blocks? The spiritual teachings of David R. Hawkins on the nature of consciousness, spirit, and ego are known worldwide by students seeking to realize spiritual Truth. As a mystic, Dr. Hawkins has infused the truths found in the precepts of Western religion with the core of Eastern philosophy, bridging the familiar, physical world to the nonlinear, spiritual domain. This collection of passages, carefully selected from Dr. Hawkins's extensive writings, offers readers a new contemplation for each day. Any one of these passages, fully understood, can elevate one's level of consciousness.

Describes a means to let go of the obstacles to Enlightenment and become free of negativity.

This is the second volume of a trilogy that began with Power vs. Force and will be completed in the year 2002 by the publication of the third volume entitled I: Reality and Subjectivity. The Eye of the I (which calibrates at 950) is more advanced than Power vs. Force (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. The Eye of the I is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity.

The now widely known Map of calibrated levels of Consciousness was presented in Power vs. Force in 1995 and has been translated into all the world's major languages. This was followed by The Eye of the I (2001), I: Reality and Subjectivity (2003), and Truth vs. Falsehood (2005), which explored the levels of Truth reflected throughout society. Transcending the Levels of Consciousness returns to the exploration of the ego's expressions and inherent limitations and gives detailed explanations and instructions on how to transcend them. As with the reading of Dr. Hawkins' previous books, the reader's level of consciousness is advanced as a consequence of exposure to the information itself. This opens up avenues to the relief of suffering for oneself and others, which fulfills the purpose of the work and the intention

to facilitate the reader's own Enlightenment.

How does one traverse the spiritual landscape to move beyond suffering to experience the peace and love of God, to dissolve illusion and realize the state of enlightenment? In this collection of inspiring passages from David R. Hawkins's work, the reader is reminded of the illusory nature of the personal self (identification of the ego/mind) and the direct pathways to dissolve the ego/mind's trappings. This pocket edition is designed especially for today's spiritual student on the go, to inspire contemplation and reflection during a break at work, while hiking in the woods, during a quiet coffee-shop moment, on an airplane, with a partner—in whatever environment one finds oneself. Dissolving the Ego, Realizing the Self is a reliable companion on the aspirant's quest toward higher truth.
