This is a book of reflections by A.A. members for A.A. members. It was first published in 1990 to fulfill a long-felt need within the Fellowship for a collection of reflections that moves through the calendar year--one day at a time. Each page contains a reflection on a quotation from A.A. Conference-approved literature, such as Alcoholics Anonymous, Twelve Steps and Twelve Traditions, As Bill Sees It and other books. These reflections were submitted by members of the A.A. Fellowship who were not professional writers, nor did they speak for A.A. but only for themselves, from their own experiences in sobriety. Thus the book offers sharing, day by day, from a broad cross section of members, which focuses on the Three Legacies of Alcoholics Anonymous: Recovery, Unity and Service. Daily Reflections has proved to be a popular book that aids individuals in their practice of daily meditation and provides inspiration to group discussions even as it presents an introduction for some to A.A. literature as a whole.

What if Mulan had to travel to the Underworld? When Captain Shang is mortally wounded by Shan Yu in battle, Mulan must travel to the Underworld, Diyu, in order to save him from certain death. But King Yama, the ruler of Diyu, is not willing to give Shang up easily. With the help of Shang's great lion guardian ShiShi, Mulan must traverse Diyu to find Shang's spirit, face harrowing obstacles, and leave by sunrise--or become King Yama's prisoner forever. Moreover, Mulan is still disguised as the soldier called Ping, wrestling with the decision to reveal her true identity to her closest friend. Will Mulan be able to save Shang before it's too late? Will he ever be able to trust her again? Or will she lose him--and be lost in the Underworld--forever?

The book emphasizes lightness and harmony, reflecting a deep love and respect for the horse.

Now in paperback, a masterly analysis of the book of Numbers, the newest volume in the award-winning series of commentaries on the Hebrew Bible by "a celebrated biblical scholar, keen on weaving together traditional Jewish exegesis, psychoanalysis, and postmodern criticism" (The New York Times Book Review) Through the magnificent literary, scholarly, and psychological analysis of the text that is her trademark, Avivah Zornberg tackles the enduring puzzlement of the book of Numbers. What should have been for the Israelites a brief journey from Mount Sinai to the Holy Land has become a forty-year death march. Both before and

after the devastating report of the Spies, the narrative centers on the people's desire to return to slavery in Egypt. At its heart are speeches of complaint and lament. But in the narrative of the book of Numbers that is found in mystical and Hasidic sources, the generation of the wilderness emerges as one of extraordinary spiritual experience, fed on miracles and nurtured directly by God- a generation of ecstatic faith, human partners in an unprecedented conversation with the Deity. Drawing on kabbalistic sources, the Hasidic commentators depict a people who transcend prudent considerations in order to follow God into the wilderness, where their spiritual yearning comes to full expression. Is there a way to integrate this narrative of dark murmurings, of obsessive fantasies of return to Egypt, with the celebration of a love-intoxicated wilderness discourse? The question touches not only on the language the Israelites speak but also on the very nature of human utterance. What effect does the cumulative trauma of slavery, the miracles of Exodus, and the revelation at Sinai have on a nation that is beginning to speak? In *Bewilderments*, one of our most admired biblical commentators suggests fascinating answers to these questions.

J. Glenn Gray entered the army in May 1941, having been drafted on the same day he achieved his doctorate in philosophy from Columbia University. Over a decade after his discharge in 1945, Gray began to reread his war journals and letters in an attempt to find meaning in his wartime experiences. The result is a philosophical meditation on what warfare does to us and why soldiers act as they do.

The most comprehensive book on giraffes to appear in the last fifty years, this volume presents a magnificent portrait of a group of animals who, in spite of their legendary elegance and astonishing gentleness, may not entirely survive this century. Dale Peterson's text provides a natural and cultural history of the world's tallest and second-biggest land animals, describing in detail their biology and behavior. He offers a new perspective on the giraffes' place in our world, and argues for the stronger protection of these imposing yet endangered creatures and their elusive forest relatives, the okapis. Some 120 stunning photographs by award-winning wildlife photographer Karl Ammann capture the grace and elegance of *Giraffa camelopardalis*. Both beautiful and informative, the images document giraffes' complex interactions with each other and their environment.

Seaside, Florida, which has had a significant global influence on town planning around the world. The book features, among other elements, new projects built in and around the town since the last publication in 2013, and outlines a blueprint for moving forward over the next twenty-five to fifty years. Many new essays by a wide array of prominent architects and designers, including Robert A. M. Stern, Andrés Duany, Deborah Berke, Steven Holl, Elizabeth Plater-Zyberk, Ray Gindroz, and Scott Merrill, examine urbanism today as well as sustainability and the environment. Dhiru A. Thadani, AIA, is an architect, author, and urbanist who has worked on projects across the globe and now serves as urban design consultant to several U.S. and international cities. Joseph P. Riley Jr. is an American politician who served for ten terms as mayor of Charleston, South Carolina (1975-2016). Léon Krier is an architect, architectural theorist, urban planner, and prominent advocate of New Urbanism and New Traditional architecture. He is also adviser to Charles, Prince of Wales.

A philosopher and cultural critic discusses the diverse ways in which violence is perceived and misperceived in the world, addressing such provocative issues as whether or not capitalism, or even civilization, causes more violence than it prevents, and the inherent violence of globalization, fundamentalism, and language.
