The shaman's purpose is to heal and restore balance to her or his community by making contact with spirit guides and power animals. A shaman can contact the spirit world while in an altered state of consciousness at the behest of others. Mircea Eliade defines the shaman as "a psychopomp, and he may also be a priest, mystic, and poet."

Alberto Villoldo, a classically trained medical anthropologist, has studied shamanic healing techniques among the descendants of the ancient Inkas for more than twenty years. In Shaman, Healer, Sage, he draws on his vast body of knowledge to create a practical and revolutionary program based on the traditional healing methods used by these shamans -- methods that, until now, have been inaccessible to most of the world. Villoldo explains that central to shamanic healing is the concept of the Luminous Energy Field that is believed to surround our material bodies. His book teaches us to see and influence the imprints that disease leaves on this field and thereby to heal ourselves and others, as well as prevent illness. Villoldo weaves wonderful teaching stories throughout about the healing power of the energy medicine of the Americas. In one story, Villoldo comes down with pneumonia while in Peru. When antibiotics fail to control the infection, his mentor, the shaman Don Antonio, uses the process of Illumination to remove the toxins that had invaded Villoldo's body. These same shamanic techniques later allowed Villoldo to remove stagnant energy from a young woman whose marriage was suffering due to her past experience with abandonment. With the aid of shamanic work, the woman regained her trust in others, and her marriage was revitalized. This book is rich with ancient wisdom and contemporary techniques we can use to help ourselves and others, as well as with the more advanced methods of master shamans, which are being brought to a wide audience for the first time.

A colorful and compelling examination of evidence for the mind's ability to heal, taking a step into the fascinating world of psychic healing and shamanism. 80 black-and-white photographs.

The Illumination Process guides the reader on a healing journey, forged by the timeless wisdom of indigenous cultures and the latest theories of neurobiology. Through various stages in this journey of initiation, we grow to understand the causes of our suffering and how to free ourselves from the pain and drama of our unhealed emotions. Life itself invites us to be initiated through many means--the possibility of love, the loss of a parent or friend, the birth of a child, or a serious health crisis. True initiation is empowered by facing personal challenges and experiencing the spiritual rebirth--or illumination--that follows. Unifying this book is the sacred process of transforming toxic emotions into sources of power and grace. The Illumination Process shows us how to bid a joyful good-bye to the people and places we have met, discovering a sacred space where the spirit inhabits, uniting the body and soul. When we learn to let go of difficult situations and problems, to accept our lives as they are, we can begin to identify with a self that is eternal. Recounting his own experiences, tracing the mythologies of an array of cultures, and expanding his inquiry into the field of neurobiology, Alberto Villoldo shows readers how they can benefit from these sacred practices.

This groundbreaking book offers a complete "healer's toolkit" for shamanic practitioners. Along with an in-depth discussion of the theories, practices, and ethics of shamanic healing work, this guide gives you first-hand accounts of healing experiences from the author's practice, exercises to help you develop your skills and abilities, and ceremonies to use in your own practice. The Book of Shamanic Healing covers all aspects of shamanic healing in a practical manner, with instructions on how to: • Create sacred space and healing ceremonies • Partner with your drum to create healing • Develop your shamanic and psychic abilities • Free your voice and seek your power song • Communicate quickly and easily with spirit guides • Explore your shadow side • Perform soul retrievals and extractions safely • Use dreams, stones, crystals, and colors in healing work • Connect to the healing universe and live in balance

The Heart of the Shaman will take you on a journey into the sacred world of the shaman, through stories, dreams, and ancient rites. In his latest book, Alberto Villoldo sets his focus on the dreaming and time-travel practices of the medicine men and women of the Andes and Amazon, whose wisdom radically changed his worldview. Villoldo shares some of their time-honored teachings that emphasize the sacred dream: an ephemeral, yet powerful vision that has the potential to guide us to our purpose and show us our place in the universe. The practices in this book will help you forge a sacred dream for yourself. They will help you craft a destiny infused with courage, and driven by vision. You'll be invited to follow the footsteps of the luminous warrior and learn how to break out of the three nightmares surrounding love, death, and safety that have held you captive, and transform them into the experience of timeless freedom, known as the Primordial Light. This creative power exercised by shamans will lead you to create beauty and healing, and dream a new world into being. When you transform these dreams and accept that life is ever changing, that your mortality is a given and that no one except you can free you from fear--the chaos in your life turns to order, and beauty prevails. "Wake up from the slumber you are living in, and dream with your eyes open so that all the possibilities of the future are available to you."

This fascinating book by best-selling author, psychologist, and medical anthropologist Alberto Villoldo explains the practices for healing outside of ordinary time and space. It shows you how to enter the timeless now to heal events that occurred in the past, and to correct the course of destiny. Dr. Villoldo discusses ways in which you can heal yourself and your loved ones by employing intention through practices used by shamans of the Americas--which, until now, have been inaccessible to most of the world. The shamans of old called this journeying. In this book, you'll discover that you have a four-chambered heart in the same way you have a four-chambered soul. In the first chamber, you store away the memory of a wound that derailed your destiny. In the second, you keep the limiting beliefs and soul contracts that you entered into at the time of your loss. In the third, you recover the grace and trust that will make you whole again; and in the fourth, you remember the calling and mission that you choose to unfold in this lifetime. "While everyone has a future," Villoldo says, "only certain people have a destiny." This book shows you how to find and manifest yours.

A story-based guide to the techniques of shamanic healing • Details indigenous medicine tools and soul healing techniques, including diagnosis and energy cleansing with plants, stones, fire, flower essences, and sound • Offers protection and self-defense techniques for confronting negative energies such as spirit attachment and possession • Shares healing stories that each address a specific condition, such as panic attacks, PTSD, depression, cancer, chronic pain, grief, and relationship problems Shamanic healing is making an astonishing comeback all over the modern technology-driven and consumerist world. Millions of people have felt called to integrate both ancient and modern healing systems into a new model of healthcare. But what makes shamanic healing so powerful? Why have indigenous healers kept it alive for thousands of years? Revealing his personal journey and stories from his more than 20 years as a shamanic healer, Itzhak Beery explains who a shaman is and how he or she works, demystifying and destigmatizing the shamanic healing worldview. He shares shamanic wisdom from two of his teachers: a Yachak from Ecuador and a well-known Brazilian Pagé. He details indigenous medicine tools and soul healing techniques that you can practice with your own clients or in your own personal healing, including diagnosis and energy cleansing with plants, stones, fire, rum, eggs, flower essences, and sound. He shares protection and self-defense techniques for confronting negative energies, such as spirit attachment and possession. Sharing healing stories that each address a specific condition, such as panic attacks, PTSD, depression, cancer, chronic pain, grief, and relationship problems, Beery explains how a shaman is not responsible for curing everyone and will consult with the patient's soul to determine its needs, which sometimes includes learning from the illness experience. By sharing these healing methods, Beery reveals the importance of shamanic practices in resolving our 21st-century emotional and physical problems and their importance to the future of humanity and the planet.

Today our minds, our emotions, our relationships, and our bodies are out of kilter. We know it, but we tend to ignore it until something brings us up short--a worrying diagnosis, a broken relationship, or simply an inability to function harmoniously in everyday life. When things are a little off, we read a self-help book. When they're really bad, we bring in oncologists to address cancer, neurologists to repair the brain, psychologists to help us understand our family of origin. But this fragmented approach to health is merely a stopgap. To truly heal, we need to return to the original recipe for wellness discovered by shamans millennia ago: One Spirit Medicine. Through One Spirit Medicine, the shamans found that they could grow a new body that allowed them to live in extraordinary health. They learned how to switch off the "death clock" inside every cell, and turn on the "immortality" genes that reside in password-protected regions of our DNA. Cancer, dementia, and heart disease were rare. The shamans of old were truly masters of prevention. Drawing on more than 25 years of experience as a medical anthropologist--as well as his own journey back from the edge of death--acclaimed shamanic teacher Alberto Villoldo shows you how to detoxify the brain and gut with superfoods, use techniques for working with our luminous energy fields to heal your body, and follow the ancient path of the medicine wheel to shed disempowering stories from the past and pave the way for rebirth. Using the principles and practices in this book, you can feel better in a few days, begin to cure your mind and heal your brain in a week, and in six weeks be on your way to a new body--one that heals rapidly, retains its youthful vitality, and keeps you connected to Spirit, to the earth, and to a renewed sense of purpose in your life.

The Four Insights are the wisdom teachings that have been protected by secret societies of Earth keepers, the medicine men and women of the Americas. The Insights state that all creation humans, whales, and even stars is made from light manifest through the power of intention. The Earth keepers mastered the Insights, and used them to heal disease, eliminate emotional suffering, and even grow new bodies that age and heal differently. Mastery of the Insights allows you to reinform your DNA and participate consciously in your biological, emotional, and spiritual evolution. According to the prophecies of the Maya, Hopi, and In ka Earth keepers, we're at a turning point in human history, when a new species of human will give birth to itself. We're going to take a quantum leap into what we're becoming and will no longer be Homo sapiens but Homo luminous. The Four Insights reveal ancient technologies we can practice for becoming beings of light with the ability to perceive the energy and vibration that make up the physical universe at a much higher level.
