Focuses on organisational goals and those of other stakeholders and society at large. This book provides an insight into the potential benefits and pitfalls, expectations and concerns of advancing a critical view of HRD in practice. It is intended for lecturers, students and practitioners who are achng for a critical analysis.

This practical and stimulating book introduces and showcases a wide range of motoring art styles. Recognising the importance of drawing and research, it explains the key components of a successful painting, looking particularly at light, perspective, drawing ellipses and the vehicle itself. Including over 150 finished paintings with full descriptions of how they were conceived and carried out, this beautiful book is sure to inspire both artist and buyers alike, and gives a unique insight into the work of a leading motoring artist. Gives an introduction to a variety of methods, materials and techniques and instruction on understanding and drawing the structure, mechanics and movement of the car. Discusses the importance of light in determining the overall feel and atmosphere of the image, and offers ideas for composition with figures, backgrounds and weather conditions to set the scene. A wide range of examples illustrate atmosphere, emotion, composition and action. This book will inspire motoring artists and buyers alike, and is beautifully illustrated with 169 colour photographs.

Finger plays, jingles, and musical games provide entertainment for the nursery.

This book tells the remarkable history of an Alfa Romeo Monza and its characterful drivers and owners, some with life stories worthy of a movie script. Built in 1933, '221130' was raced that year by the Hon. Brian Lewis and won its debut at Brooklands and the arduous Mannin Moar race on the Isle of Man. The car continued to be raced until the war by John Cobb (1934) who later was a land speed record holder, Luis Fontes (1935) who was also an aeroplane racer, Anthony Powys-Lybbe (1936–37) and Fay Taylor (1938) who was interned during the Second World War for her Fascist links, at venues as diverse as Vila Real (Portugal) and Phoenix Park (Ireland). Post-war, a succession of notable owners included Peter Hampton, the Hon. Patrick Lindsay and Hubert Fabri, all passionate collectors, to arrive at its status today as one of the more important surviving Monzas, and a car with so much charisma and historic interest that it is a most worthy addition to the acclaimed 'Great Cars' series

Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of Korean: A Comprehensive Grammar makes it an essential reference source on the Korean language.

The First Three Shelby Cobras, the third book in the acclaimed Exceptional Cars series, tells the story of three remarkable cars, the first AC Cobras created by the legendary Carroll Shelby in 1962 and now favorites of sports-car enthusiasts throughout the world. The prototype CSX2000 has been described as the "most important American car", although it was built on a British AC Ace chassis with an American Ford V8 engine. It was retained by the Shelby family until 2016, when it sold at auction for a record \$13.75 million. CSX2001 was the first production Cobra, and was delivered to American racing driver Ed Hugus. It was later sold to Frenchman Jean-Marie Vincent, who raced in the Tour de France and in numerous European hillclimbs. CSX2002 was the first Cobra to race and nearly won its inaugural outing at Riverside, driven by Bill Krause, until sidelined by a broken rear hub. It did take the first ever Cobra win, with Dave MacDonald at Tucson in March 1963. Its success led to a series of competition wins that made Shelby's Cobras famous and admired across the globe. All three cars are now the pride of car collections in the United States of America. CSX2000 and CSX2002 are part of the Larry Miller Collection, and CSX2001 belongs to California-based motorsport aficionado Bruce Meyer.

Showcasing the work of the late Simon Owen, artist and illustrator, this book contains over seventy graphic compositions of racing car liveries. Each is presented with a relevant quote from a legend of motorsport. A section revealing Simon's painstaking working methods gives a fascinating insight to how the digital images were constructed.

As research on the human, animal, plant and microbial genomes matures towards descriptive fullness, the need for understanding the proteome has clearly emerged as the next major endeavor of life sciences. Proteomics - the quantitative analysis of all proteins working in a cell at a specific time and at specific conditions - provides deep insight into the highly organized network of expression, modification and degradation of proteins. Compiled in this book are reviews and research articles which describe the recent advances and perspectives of this new field of research. The articles are grouped into the following sections: - Sample Preparation and Solubilization - Developments in Electrophoresis - Detection and Quantitation - Mass Spectrometry - Proteome Data Analysis and Management - Prokaryotes and Yeast - Biological Fluids - Eukaryotic Cells and Tissue - Oncology - Plants Proteomics is a new key for the functional analysis of living systems and of equal importance for basic as well as application oriented research.
