Abandoned by his mother in an Acadia National Park campground, Jack tries to make his way back to Boston before anyone figures out what is going on, with only a small toy elephant for company.

Jack ’ s mom is gone, leaving him all alone on a campsite in Maine. Can he find his way back to Boston before the authorities realize what happened? (Ages 10-14) Ever since Jack can remember, his mom has been unpredictable, sometimes loving and fun, other times caught in a whirlwind of energy and "spinning" wildly until it ’ s over. But Jack never thought his mom would take off during the night and leave him at a campground in Acadia National Park, with no way to reach her and barely enough money for food. Any other kid would report his mom gone, but Jack knows by now that he needs to figure things out for himself - starting with how to get from the backwoods of Maine to his home in Boston before DSS catches on. With nothing but a small toy elephant to keep him company, Jack begins the long journey south, a journey that will test his wits and his loyalties - and his trust that he may be part of a larger herd after all.

Africa is not an easy place to live, even for the enormous elephants that call it home. Foraging for food and water and fighting off predators are only a few of the many skills that these giants must acquire as part of the long learning process that begins immediately after birth. Thankfully, they have a large familial network in place to teach them how to wash and drink and whiffle and roar--everything they need to know about how to be an elephant. Award-winning author-illustrator Katherine Roy's How to Be an Elephant delves into the intricate family dynamics at play in a typical African herd. Emphasizing the latest available research with lush watercolor illustrations and detailed diagrams, Roy vividly portrays the life and development of an elephant from an uncertain 220-pound newborn into a majestic, 7,000-pound matriarch. As informative as it is beautiful, this unique portrait of an elephant's life will captivate young explorers and their parents alike. David Macaulay Studio.

But it ’ s been two months, and Gage still hasn ’ t found them an apartment. He and Ari have been " couch surfing. " staying with Gage ’ s friend in a tiny apartment, crashing with Gage ’ s girlfriend and two roommates, and if necessary, sneaking into a juvenile shelter to escape the cold Maine nights. But all of this jumping around makes it hard for Ari to keep up with her schoolwork, never mind her friendships, and getting into Carter starts to seem impossible. Will Ari be forced to break one of her promises to Mama? Told in an open, authentic voice, this nuanced story of hiding in plain sight may have readers thinking about homelessness in a whole new way.

Animals big and small introduce pre-schoolers to basic math concepts. With the help of the colorful animals in this book, even the youngest child will be able to grasp the idea of ratio and relative size. The opening illustration shows an elephant, followed by a simple phrase "1 polar bear is smaller than an elephant." An illustration of an elephant , rather than the word, challenges young children to recall the name of the animal. Then, on the facing page, an illustration shows how many polar bears would make up one elephant. It's seven! Subsequent spreads build on this concept--turn the page and readers will discover how many lions make a polar bear, and so on. The animals become progressively smaller, until the last comparison between a lemur and flea. But the book doesn't end there. Children learn that there is one animal that is bigger than them all: a whale, and that it takes all the animals in the book to make just one. Preschoolers will enjoy this fresh approach that teaches them the names of animals as well as the concept of relative size.

A boy provides instructions as he searches high and low for an elephant, which the reader can find in the illustrations.

In this latest installment in the cherished No. 1 Ladies ’ Detective Agency series, Mma Ramotswa must balance family obligations with the growing needs of one of Charlie ’ s pet projects. Precious Ramotswa loves her dependable old van. Yes, it sometimes takes a bit longer to get going now, and it has developed some quirks over the years, but it has always gotten the job done. This time, though, the world—and Charlie—may be asking too much of it, for when he borrows the beloved vehicle, he returns it damaged. And, to make matters worse, the interior seems to have acquired an earthy smell that even Precious can ’ t identify. But the olfactory issue is not the only mystery that needs solving. Mma Ramotswa is confronted by a distant relative, Blessing, who asks for help with an ailing cousin. The help requested is of a distinctly pecuniary nature, which makes both Mr. J.L.B. Matekoni and Mma Makutsi suspicious. And there is no peace at home, either, as the new neighbors are airing their marital grievances rather loudly. Still, Mma Ramotswa is confident that the solutions to all of these difficulties are there to be discovered—as long as she is led by kindness, grace, and logic and can rely on the counsel of her friends and loved ones.
