Kidder and Todd draw candidly, sometimes comically, on their own experience—their mistakes as well as accomplishments—to demonstrate the pragmatic ways in which creative problems get solved.

The Art of Fiction evolved from that course. Though Rand's Romantic Manifesto was also partly based on the same lecture series, this book omits (for the most part) Rand's discussions of other art forms. Its gist is a case for fiction that is "Romantic" (deriving from a belief in free will) rather than "Naturalistic" (allowing for fate).

The Pulitzer Prize and National Book Award-winning author of House and the editor of Atlantic Monthly share stories from their literary friendship and respective careers, offering insight into writing principles and mechanics that they have identified as elementary to quality prose.

The past few years have featured such blockbusters as "Super-Size Me," "Fahrenheit 9/11," "Sicko," "March of the Penguins," and "An Inconvenient Truth." And as news articles proclaim a new era in the history of documentary films, more and more new directors are making their first film a nonfiction one. But in addition to posing all of the usual challenges inherent to more standard filmmaking, documentaries also present unique problems that need to be understood from the outset. Where does the idea come from? How do you raise the money? How "much" money do you need? What visual style is best suited to the story? What are the legal issues involved? And how can a film reach that all-important milestone and find a willing distributor? Epstein, Friedman, and Wood tackle all of these important questions with examples and anecdotes from their own careers. The result is an informative and entertaining guide for those just starting out, and an enlightening read for anyone interested in a behind-the-scenes look at this newly reinvigorated field of film.

In 1958, Ayn Rand, already the world-famous author of such bestselling books as Atlas Shrugged and The Fountainhead, gave a private series of extemporaneous lectures in her own living room on the art of fiction. Tore Boeckmann and Leonard Peikoff for the first time now bring readers the edited transcript of these exciting personal statements. The Art of Fiction offers invaluable lessons, in which Rand analyzes the four essential elements of fiction: theme, plot, characterization, and style. She demonstrates her ideas by dissecting her best-known works, as well as those of other famous authors, such as Thomas Wolfe, Sinclair Lewis, and Victor Hugo. An historic accomplishment, this compendium will be a unique and fascinating resource for both writers and readers of fiction.

Ernest Hemingway devoted a large part of his writing life to nonfiction in the form of newspaper and magazine journalism and especially in the form of five full-length books. His nonfiction, however, is usually taken only as a diversion from the main business of his career, fiction, and examined only for light shed on the fiction. In this study - the first devoted exclusively to Hemingway's nonfiction books, the heart of his effort as a fact writer - the work is considered in its own right as a central part of his achievement.

The first comprehensive work on nonfiction as an art form • Shows how nonfiction, especially how-to and self-help, can take on the same power and luminosity as great fiction • Develops processes to reliably induce the dreaming state from which all writing comes • Teaches the skill of analogical thinking that is the core perceptual tool for writers • Explores the subtle techniques of powerful writing, from inducing associational dreaming in the reader, to language symmetry, sound patterning, foreshadowing, feeling flow, and more Approaching writing as a sacred art, Stephen Buhner explores the core of the craft: the communication of deep meaning that feeds not just the mind but also the soul of the reader. Tapping into the powerful archetypes within language, he shows how to enrich your writing by following " golden threads " of inspiration while understanding the crucial invisibles essential to the art of both fiction and nonfiction: how to craft language with feeling and vision, employ altered states of mind to access the writing trance, clear your work by recognizing the powerful sway of clichéd thinking and hidden baggage, and intentionally generate duende—that physical/emotional response to art that gives you chills, opens up unrecognized aspects of reality, or simply resonates in your soul. Covering some very practical aspects of writing such as layering and word symmetry, the author also explores the inner world of publishing--what you really will encounter when you become a writer. He then shows how to develop a powerful and engaging book proposal based on understanding the proposal as a work of fiction--the map is never the territory, nor is the proposal the book that it will become. This book, written using all the techniques discussed within it, offers a powerful, experiential journey into the heart of writing. It does for nonfiction what John Gardner ' s books on writing did for fiction. It is one of the most significant works on writing published in our time.

One has to look no further than the audiences hungry for the narratives served up by Downton Abbey or Wolf Hall to know that the lure of the past is as seductive as ever. But incorporating historical events and figures into a shapely narrative is no simple task. The acclaimed novelist Christopher Bram examines how writers as disparate as Gabriel García Márquez, David McCullough, Toni Morrison, Leo Tolstoy, and many others have employed history in their work. Unique among the "Art Of" series, The Art of History engages with both fiction and narrative nonfiction to reveal varied strategies of incorporating and dramatizing historical detail. Bram challenges popular notions about historical narratives as he examines both successful and flawed passages to illustrate how authors from different genres treat subjects that loom large in American history, such as slavery and the Civil War. And he delves deep into the reasons why War and Peace endures as a classic of historical fiction. Bram's keen insight and close reading of a wide array of authors make The Art of History an essential volume for any lover of historical narrative.
