In this, the follow-up to the best-selling Philosophy for Kids, Dr. David White delves deeper into the philosophical questions kids (and adults) care about deeply. Through vibrant discussions and debate, the book offers ways teachers can help students grapple with age-old questions about the nature of friendship (Aristotle), time (Augustine), knowledge (Plato), existence of God (Aquinas), perception (Berkeley), freedom and society (Rousseau), and many more. The book is divided into three sections. Part 1 presents primary source readings that will encourage discussion and debate; Part 2 offers easy-to-use activities that focus on the direct application of philosophy to areas such as critical thinking, language, and the arts; and Part 3 offers a unique perspective just for teachers—a philosophical look at how teachers can become more reflective philosophers themselves. This is an excellent teachers' handbook for using advanced philosophy in the classroom.

## PHILOSOPHY/EASTERN RELIGIONS

Boldly takes philosophy from the academy to the streets to show how great ideas are born through a profound engagement with the everyday. This companion to Astra Taylor's documentary film features interviews with eight iconoclastic and influential philosophers, conducted whilst on the move through places

that hold special resonance for them and their ideas. Peter Singer's thoughts on consumption are amplified against the backdrop of Fifth Avenue; Michael Hardt ponders the nature of revolution; and Judith Butler ponders individualism.

How do you define “growing up”? Does it mean you achieve certain cultural benchmarks—a steady income, paying taxes, marriage, and children? Or does it mean leaving behind the expectations of others and growing into the person you were meant to be? If you find yourself in a career, place, relationship, or crisis you never foresaw and that seems at odds with your beliefs about who you are, it means your soul is calling on you to reexamine your path. With his trademark eloquence and insight, Dr. Hollis offers a potent resource you'll return to time and again to energize and inspire you on your journey to create a life of personal authority, integrity, and fulfillment.

A New York Times Notable Book for 2011 We all want to know how to live. But before the good life was reduced to ten easy steps or a prescription from the doctor, philosophers offered arresting answers to the most fundamental questions about who we are and what makes for a life worth living. In *Examined Lives*, James Miller returns to this vibrant tradition with short, lively biographies of twelve famous philosophers. Socrates spent his life examining himself and the assumptions of others. His most famous student, Plato, risked his reputation to tutor a tyrant. Diogenes carried a bright lamp in broad daylight and announced he was “looking for a man.” Aristotle's alliance with Alexander the Great presaged Seneca's complex role in the court of the Roman Emperor Nero. Augustine discovered God within himself. Montaigne and Descartes struggled to explore their deepest convictions in eras of murderous religious warfare. Rousseau aspired to a life of perfect virtue. Kant elaborated a new ideal of autonomy. Emerson successfully preached a gospel of self-reliance for the new American nation. And Nietzsche tried “to compose into one and bring together what is fragment and riddle and dreadful chance in man,” before he lapsed into catatonic madness. With a flair for paradox and rich anecdote, *Examined Lives* is a book that confirms the continuing relevance of philosophy today—and explores the most urgent questions about what it means to live a good life.
