The Secret introduced people around the world to a profound yet seemingly contradictory concept: to lead is to serve. With that as the foundation Great Leaders Grow takes the next step, showing leaders how to ensure that they'll be able to effectively serve throughout their careers. The Secret's protagonist, Debbie Brewster, now an accomplished leader herself, becomes a mentor to Blake, her former mentor's son. She teaches him not just how to lead, but emphasizes the critical importance of continually learning and developing his leadership abilities throughout his career. She identifies four areas in which every leader must continue to GROW - Gain Knowledge (of themselves, others, their industry and the field of leadership); Reach Out to Others, both formally and informally; Open their World, at work and outside of work; and Walk toward Wisdom (through self-evaluation, feedback, counsel and over time). This book is for any leader in any organization that needs more and better leaders faster. Its blueprint for culture transformation is a simple yet revolutionary path to sustainable achievement.

In his first book, It's Not Just Who You Know, former CEO of Up with People Tommy Spaulding talked about the power of building genuine and lasting relationships both personally and professionally. In his new book, Spaulding turns his focus to ourselves -- to who we are. Authentic leaders, Spaulding says, live and lead from the heart. The values and principles that guide our lives and shape our ability to lead others is far more important than our title, or our ability to crunch numbers, or the impressive degrees we display on our walls. To effect true transformational change, heart-led leaders draw on the qualities of humility, vulnerability, transparency, empathy and love. Illustrated with stories from his own life, and from some of the exceptional leaders he has met and worked with over the years, Spaulding unpacks what those qualities mean, talks about the 18-inch journey from the head to the heart -- from our intellect to our emotions -- and shows us how to incorporate them into our careers, into how we manage and lead others, and into how we live our lives.

This book provides a framework for guiding leaders to shift from linear, cause-effect thinking to an ecology of moral, intentional leadership, paying attention to how their actions are connected to others. Readers are encouraged to act in a determined, deliberate way to lead their employees, teams, and organizations to success. The book is divided into three parts, opening with a narrative review of leadership literature, then discussing the activities of 11 leaders—including Pope Francis, Barack Obama, and Lee Kuan Yew—and developing a learning framework for real change. The author provides an enlightened, democratic model of leadership, helping readers to understand and utilize the core competencies of intentional leaders: interruption, presence, imagination, and action. A user-friendly structure, examples from diverse leaders, and end-of-chapter summaries encourage students to engage and experiment with traditional research and alternative theories. This will be a useful tool for students of leadership, and peace and conflict studies, as well as practitioners and emerging leaders in the public, private, and not-for-profit sectors.
