Napoleon Hill's Original Master Class on Individual Achievement Before the landmark book Think and Grow Rich came The Law of Success, an eight-volume series in which Hill presents the complete Science of Success philosophy. Originally published in 1928, this success system contains sixteen lessons on personal achievement, gleaned from interviews with and research on over 500 top performers from various industries and walks of life. Now condensed for your convenience into one compact volume curated by the Trustees of the Napoleon Hill Foundation, The Law of Success details the exact steps by which any individual can harness the power of thought to turn their dreams into reality. This is much more than a guide or roadmap; it is a total lifestyle makeover, with concrete resources for everyday application. If you are serious about becoming the best version of yourself in your field, your relationships, your health, and your finances, then you are ready for the original master class on success. ~ A message from the executive director and CEO of the Napoleon Hill Foundation ~ There have been many requests over the years for a version that is more concise and compact yet contains the core lessons discovered and set forth in the discussion of the sixteen success principles. The Trustees of the Napoleon Hill Foundation heard these requests and took on the task of producing such a book, containing what they viewed as the essential lessons and most important portions of the original work, and what you are about to read is the result. This version has dispensed with the third party quotations and "After the Lesson" essays in the original work, deleted some stories that were repeated in other of Hill's books published after 1928, and eliminated repetition (rightly valued by Mr. Hill as a learning method but not appropriate for a compact volume.) The Trustees believe, and hope you will agree, that the resulting volume contains all the essential wisdom of this groundbreaking work, Law of Success. I have been the Executive Director of the Napoleon Hill Foundation since 2000, and I and the other Trustees who contributed to this work have nearly 200 years combined years of service to the Foundation. I believe they are singularly equipped to produce the best distillation of Napoleon Hill's seminal work and am proud to present this book for your enjoyment, appreciation, and education. —Don M. Green, Executive Director, Chief Executive Officer, and Trustee

success: Once we understand our true nature and learn to live in harmony with natural law, a sense of well-being, good health, fulfilling relationships, energy and enthusiasm for life, and material abundance will spring forth easily and effortlessly. Filled with timeless wisdom and practical steps you can apply right away, this is a book you will want to read and refer to again and again.

The Law of Success was a precursor to Napoleon Hill's Think and Grow Rich. The Law of Success is organized into sixteen original principles, or lessons. All of them are listed below: 1: The Master Mind- Telepathy, ether, vibration, and how it all is the basis for how the world functions. A master mind is the alliance of two minds joining in a harmonious way. The power that is formed from two or more minds coming together is more powerful than one alone. This is strictly for minds who trust each other and are interested in the good success of all parties involved. 2: Your Definite Chief Aim- Do not underestimate the value of this due to its simplicity. You need to set an objective before you can achieve it. Not having a solid aim to focus on can not possibly get you to it. You have to know what you want so that you can start receiving it. 3: Self Confidence- Believe that you are worthy of success and that you can attain it. Without this simple understanding- truly understanding it- you will probably get nowhere with most of your goals. If you are not confident, then you cannot sell yourself in life. 4: The Habit of Saving- Stop trying to get a Cadillac if you feel more comfortable paying for a Ford. You are on the path to easily affording a Cadillac. 5: Initiative and Leadership- Addresses the importance of leadership skills (yes, they can be habituated and you don't have to be a born leader). Here, Hill acknowledges the penalties of leadership. Leaders are not always spoken of sweetly. This should not deter you from becoming a leader. It is only "genius" that attracts the attention of critics. Nobody bothers slandering a person who isn't somewhere near the upper rings of the ladder of success. 6: Imagination- Dream, and use your imagination to help lead you to the attainment of your goals. The making good decisions comes with use, and your intuition will always lead you toward your dream. Dreams and actions are closely related. 7: Enthusiasm- Compels you to act. Mix enthusiasm with your work- do something you are enthusiastic about- and you will not get tired nearly as quickly. Hill explains the things that can contribute to enthusiasm, one being to wear nice clothes. Basically, if you look like a million bucks, you'll feel like a million bucks, and you will likely find yourself around a million bucks. The opposite is also true, and this is to be avoided. Feel good about your appearance, because it also affects the first impression of you on others who can be instrumental in your path to success. 8: Self Control- Auto suggestion is like reprogramming your subconscious mind to believe what you want it to believe- to replace your old beliefs with new ones that will serve you better. This takes self control. Have you ever tried to change a habit? It makes sense. When you take control over the thoughts you are thinking, then you can take control of your success. Make these thoughts the ones you want to believe, and see yourself the way you want to see yourself. 9: Habit Of Doing More Than Paid For- If you are going to whine about your work, then you are not going anywhere. Do the work you have in front of you, then ask what else you may do. By doing this, you make yourself valuable, and you will surely reach a point where you are being paid handsomely. Valuable employees are... valuable. This is also and especially true when you are working for yourself. 10: Pleasing Personality- Have one. Don't point things out on people, don't hang your head and say "I'm tired". Mediocrity does not care if you are pleasant or not. Success does.
