Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller Made to Stick. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body, the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In Switch, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results. ▯ The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients ▯ The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping ▯ The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect transformative change. Switch shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

USA Today bestselling author Tricia Goyer and her family of eleven embark on a yearlong quest to eliminate grumbling from their home and discover a healthier, more thankful approach to life together. The Goyer home—with two parents, eight kids, and one eighty-eight-year-old grandmother with dementia—is never without noise, mess, activity, and, often, complaining. And it's not just the kids grumbling. After adding seven children in less than six years through adoption, the Goyer family decided to move out of survival-mode and into unity- and growth-mode. They decided to tackle the impossible: a grumble-free year. With grade-schoolers, teenagers, and a grandmother who believes children should be seen and not heard, plenty of room exists for flunking the challenge. Add to that seven children being homeschooled together in close quarters, and what could possibly go awry? In The Grumble-Free Year, the Goyers invite readers into their journey as they go complaint-free and discover what it looks like to develop hearts of gratitude. They share their plans, successes, failures, and all the lessons they learn along the way, offering real-life action steps based in scripture so that readers get not just a front-row seat to the action but also an opportunity to take the challenge themselves and uncover hearts that are truly thankful.
