Toseland & Rivas Chapter 11/Reid (1997) Flashcards | Quizlet

Toseland and Rivas (2008) define group work as a goal directed activity aimed at accomplishing tasks. Members of the group have the opportunity to share ideas, feelings, thoughts, beliefs, engage in interactions and also share experiences. The group members develop feelings of mutual interdependence and a sense of belonging.

Ronald W. Toseland is the author of An Introduction to Group Work Practice (3.58 avg rating, 113 ratings, 11 reviews, published 1984), Working Effectvel...

This text provides the most comprehensive information available about group dynamics and working with people in a variety of treatment and task-oriented groups. The student receives a thorough grounding in how to work with either treatment (ongoing) or task (special focus) groups, in settings that vary from treatment to organizational and community settings. Chapters on the history of groups, group dynamics, group leadership, and diversity help the reader build a solid knowledge base about groups. Later chapters follow a problem-solving model, taking the student through the phases of group work (planning, beginning, assessing, working, evaluating, and ending), and provide the student with useful practice skills for working with groups in each phase of his or her development. This edition includes the most up-to-date research on groups and new developments in the field of group work. The bibliography and references have also been updated. New case studies in Chapters 6-14 illustrate the six stages of the social group work process to help students apply the theory to actual social work practice.

The perfect text for preparing students to work with either treatment (ongoing) or task (special focus) groups, this newly revised edition offers the most up-to-date research and technology available in the social work field. "An Introduction to Group Work Practice, Fifth Edition," continues to stress the importance of developing skills in group-work and provides the most comprehensive information available on the market today. Students receive a thorough grounding in areas that vary from treatment to organizational and community settings. Chapters on the history of groups, group dynamics, group leadership, and diversity help the reader build a solid knowledge base about groups and it apply to real-life social work practice. The addition of new case studies, practice examples, and guiding principles add to the ease and readability of this popular text. New To This Edition Special attention to the problem-solving stages used in social work practice better prepare students for leadership roles in groups. Expanded research-based literature throughout exposes students to more evidence-based practice. More practice problems and short case examples allow students to apply content and obtain feedback, helping to reinforce chapter content. Newly revised material on group dynamics, including information on work with organizations and communities, assessment, group leadership, and diversity students can use in both HBSE, Practice courses and across the baccalaureate curriculum. What Reviewers Are Saying... ""The authors' thorough coverage of this material in an organized format is exactly why I chose this text over others."" Janice G. Wells, Ph.D., Winthrop University ""The readability of all these chapters... is very good for either graduate or undergraduate level. This is certainly one of the most important overall strong points of the text. "" Daniel Liechty, Ph.D, Dmin., ACSW, LCSW, Illinois State University "" An Introduction to Group Work Practice is very comprehensive and well-researched. It has the rigor that I would expect in a substantial treatment of this subject, but the accessibility to the beginning student. It's very informative. "" Matthew R. Buckley, Ed.D., Delta State University ""I believe the text includes virtually everything that should be included in a beginning group work textbook. Its completeness is a great strength. "" Kendra J. Garrett, DSW, University of St. Thomas Students, study smarter—not harder—with these grade-boosting supplements from Allyn & Bacon! Content is tied to the competencies needed for generalist and specialized social work practice with groups.

Group Work with Populations at Risk, Second Edition is a fundamental resource for social workers and those in related health professions. Accessible and practical as well as theoretically sound, it is an essential reference for students and practitioners with little specific training in group work. This extensively revised edition provides tangible techniques and concrete guidelines on applying group work skills to a variety of situations. It is a comprehensive guidebook for those working directly with clients facing social problems or health conditions such as AIDS, cancer, addiction, head injury, divorce, mental illness, or abuse. Specific resources for further study and materials for use with each population are essential chapter components. With new chapters on internet self-help groups, group work with Asian-American immigrants, community and organizational factors, victims of school and community violence, and evidence-based practice, this nuts-and-bolts resource offers students and professionals clear, practical guidelines for applying specific skills and assessment measures to a broad range of group work environments.

Two leaders in the field of social work with groups address the need for more knowledge about the collective processes and practices centered around the task of work objectives. In this important book the editors have assembled a rich collection of articles on work with administrative groups. Contributors demonstrate how groups in the workplace, particularly those in social welfare agencies, can be facilitated in achieving objectives by the professional approach of the skilled group worker. Concepts are presented for analyzing the group processes and group dynamics found in administrative groups. The practical skills needed for serving as effective leaders and members of administrative groups are discussed, as well as qualitative and quantitative approaches for examining the efficacy of administrative group meetings.

This clear and concise study guide provides sample examinations and guidance for counsellors who wish to become certified by either the Council for the Accreditation of Counseling and Related Education (CACREP) or the National Board for Certified Counselors (NBCC), the major counsellor accreditation institutions in the United States. This Second Edition brings up to date the names of key organizations, and adds new information relevant to changes in the counsellor certification exam.
