knew that she was tired of everyone else having a say on who and what she should be. Appropriating this quote, Malebo boldly renounces societal expectations placed on her as a black woman and shares her journey towards misbehavior. According to Malebo, it is the norm for a black woman to live in a society that prescribes what it means to be a well-behaved woman. Acting like this prescribed woman equals good behavior. But what happens when a black woman decides to live her own life and becomes her own form of who she wants to be? She is often seen as misbehaving. Miss-Behave challenges society 's deep-seated beliefs about what it means to be an obedient woman. In this book, Malebo tracks her journey on a path towards achieving total autonomy and self-determinism. Miss-Behave will challenge, rattle and occasionally cause you to scream ' yassss, yassss, yassss ' at various intervals.

Named a Best Book of 2018 by Fast Company, this is a "sharply written and brilliantly reported" (Shelf Awareness) look inside Reddit, the wildly popular, often misunderstood website that has changed the culture of the Internet. Reddit hails itself as "the front page of the Internet." It's the third most-visited website in the United States -- and yet, millions of Americans have no idea what it is. *We Are the Nerds* is an engrossing look deep inside this captivating, maddening enterprise, whose army of obsessed users have been credited with everything from solving cold case crimes and spurring tens of millions of dollars in charitable donations to seeding alt-right fury and landing Donald Trump in the White House. *We Are the Nerds* is a gripping start-up narrative: the story of how Reddit's founders, Steve Huffman and Alexis Ohanian, rose

up from their suburban childhoods to become millionaires and create an icon of the digital age -- before seeing the site engulfed in controversies and nearly losing control of it for good. Based on Christine Lagorio-Chafkin's exclusive access to founders Ohanian and Huffman, *We Are the Nerds* is also a compelling exploration of the way we all communicate today -- and how we got here. Reddit and its users have become a mirror of the Internet: it has dingy corners, shiny memes, malicious trolls, and a sometimes heart-melting ability to connect people across cultures, oceans, and ideological divides.
