Transurfing is a powerful technology of managing reality. Apply it – and life will begin to change under YOUR order. The goal during using Transurfing doesn't reached, but implemented for the most part itself. It's impossible to believe , but only at first sight. The ideas presented in the book have already found practical confirmation. Those who tried to do the Transurfing, was surprised, bordering on delight. The surrounding world of Transurfer is inexplicably changing before our eyes.

Meet the new world sensation. It's Tufti. Why is it that nothing seems to work out the way you want it to, despite the fact that you act according to your own free will? You might think that the reason why nothing is working out the way you want, is because that's just how life is. But the real reason things don't work out the way you want them to, is because you aren't acting according to your own free will -you are being directed by a script. Another reason things don't work out the way people want them to, is because they don't know how to take the right action to shape events the way they want. Rather than composing the reality of the upcoming film roll, they tend to battle with the reality they face in the current frame. Reality exists only in the here and now, and what is real is real only to the extent that it has taken place in the material world. You cannot change what has already happened. Yet when you fight with your current reality, that is exactly what you are doing, because everything that surrounds you consists

of something that has already happened. If you want to change the script, you have to wake up and come alive inside the movie. Translation from the Russian language by Joanna Dobson

The universe exists according to certain laws. Knowing these laws, a person can change life according to his desires. Reality ceases to exist as something external and independent in relation to man - he acquires the ability to subordinate it to his will. Speech in this book will be about Transurfing - it is a powerful technique that gives the power to create impossible, from an ordinary point of view, things, namely, to control fate at your discretion. Despite the fact that much of what you learn will seem quite unusual to you, remember: there is no fiction here - everything is real

Transurfing is a powerful tool for managing reality. Apply it and life will begin to change according to YOUR order. When you use Transurfing goals are not reached, so much as realised for the most part of themselves. It seems impossible to believe but only at first. The ideas presented in the book have already received practical confirmation. Those who have tried Transurfing, experience surprise bordering on delight as the world of the Transurfer inexplicably changes before their very eyes. What is the book about?

Transurfing is the art of controlling reality using our freedom of choice. The world always reflects our perception of it. People can choose any variant of the development of current reality and thereby find themselves in circumstances they find desirable. To learn how to do this, you have to learn how to establish mutual understanding between the soul and mind,

formulate intention and avoid the influence of destructive pendulums. Why should you read this book? Most people who have read "Transurfing," note that from the very e first pages, the book completely reverses their view of the world and the role of the individual in their own life. A fresh look at reality encourages the reader to consciously relate to the choices they make in any moment, and this really changes their life in the direction they would like. "It works!" is the phrase found in almost all reviews of Vadim Zeland's book. Who is this book for? The book has aroused great interest among the young and middle-aged, those who are interested equally in philosophy, psychology and physics and the mysteries of human consciousness. Why we decided to publish it The idea of " Transurfing Reality" quickly gained popularity when the author posted the text on the Internet. Numerous readers' reviews, saying that it really works, and the author's original take on the structure of reality prompted the publishers decide to publish Vadim Zeland's manuscript. We had no doubt that "Transurfing" would be popular among a huge audience About the author Vadim Zeland: "I'm over forty. Before the collapse of the Soviet Union I was engaged in research in the field of quantum physics, then computer technology, and now books. I live in Russia. My nationality is Russian, or more precisely, a quarter Estonian. The rest is irrelevant, as is all the above. Regarding my own success, all I can say is that Transurfing works perfectly. I don't however want to advertise my personal life, as then it would cease to be personal. Fame turns against you, if you give in to temptation and climb up on a pedestal for all to see. Among some people, the American Indians, for

example, there is a belief that if someone copies your portrait (photographs you), they steal part of your soul. Of course, this is just superstition, but there is no smoke without fire. You can distribute a product of personal creativity; but release your personality for mass circulation - never. To the question of intrigued readers: "Who are you, Vadim Zeland?," I usually just say: "Nobody." My biography can not and should not be a matter of interest, since I am not the creator of Transurfing, only a "retranslator." It is essential that we be nothing - an empty vessel, so that we do not impose our personal distortions onto this ancient Knowledge, that opens the door to a world, where the impossible becomes possible. Reality ceases to exist as something external and independent. and becomes manageable if you follow certain rules. The secret itself that is hidden only in as much as it lies on the surface, is so great that the personality of its bearer ceases to be relevant. Perhaps the guardians who passed on this knowledge to me are of genuine interest but they too prefer to remain in the wings."

Transurfing is simple, yet powerful Reality Management Technique, developed by the Russian quantum physics researcher Vadim Zeland. Zeland's main goal is to present a set of techniques (which he calls Transurfing of Realities) for the attainment of practical goals. These techniques are of mental and metaphysical nature. Zeland supports these techniques by presenting a model of the universe that combines the elements of quantum physics with the idea of parallel worlds. As Zeland states, the use of the techniques is not dependant on the acceptance of his theoretical model. Some Transurfing techniques are

very simple and practical. Zeland says: " You can not hide from the inevitable reality. Your life is determined by circumstances and your place in society. Reality develops for the most part regardless of your own will. For every "I want" there is its own "You can't." In response to "Give it to me" you hear "You can't get it." There is little you can you do in such circumstances.... As a rule, human beings behave unambiguously. In their attempts to get what they want, they try to influence this world straight on, by the principle "Give it back to me." Direct impact, based on direct contact, is one of the ways of controlling something, but it is certainly not the most effective method of controlling reality. Transurfing is ..."

Examines the characteristics of lasting relationships while applying Control Theory as the basis for explaining the key difference between sex and sexual love and citing friendship as the essential part of any successful marriage.

The author explains his belief that the "world" is a virtual-reality game that exists because we believe it does. Original.

Our world is undergoing a reality revolution. More and more people are discovering the power of their minds to shape the world around them faster than ever before. The question is: how do you create the reality of your design? Brian Scott wants to help you find the answer. After walking away unscathed from a near-fatal shooting in his home, Brian began a fanatical search for answers. He deepened his research into parallel realities, quantum mechanics, and

consciousness to uncover what happened in his close call with death. Along the way, he developed a series of techniques capable of creating profound transformations. In *The Reality Revolution: The Mind-Blowing Movement to Hack Your Reality*, Brian introduces you to the techniques that have helped his clients find lasting love, create wealth, and revitalize health. You'll learn how to surf through parallel realities and unlock the power of your mind through a mix of researched and science-backed techniques like qi gong, meditation, quantum jumping, energy work, and reality transurfing. If you're ready to create an incredible reality for yourself, this book shows you the way.

Transurfing in Your Pocket for everyday wisdom. Excerpts of latest Vadim Zeland books, never translated in English before.

The vast majority of us unknowingly suffer from a slave mentality. We constantly experience the psychological phenomena of cognitive dissonance, where our beliefs and behaviour are in conflict, and Stockholm syndrome - the traumatic bonding with a captor. Our ability to decode reality is linked to what we are able to perceive. Icke believes our reality has been hijacked by an invisible force the Gnostics used to call Archons. He maintains that we are headed towards a cashless world and human settlements which are projected as local community initiatives but are actually centralized systems of control. Our health is being systematically weakened: if you are sick, you are easier to control. Icke's dystopian view of the future assumes that the masses will stay glued to their TVs, locked forever into the hive mind of the Matrix, which
