anthropologists. It is suitable for a range of different readers, from students studying the subject at school-level to university students looking for a clear and engaging entry point into anthropology.

What happened along the evolutionary trail that made humans so unique? In his accessible style,

File Type PDF

What Makes Us

Michael Gazzaniga
pinpoints the change that
made us thinking,
sentient humans different
from our predecessors.
He explores what makes
human brains special, the
importance of language
and art in defining the
human condition, the
nature of human
consciousness, and even
artificial intelligence.

File Type PDF

What Makes Us

Human

There exists an undeniable chasm between the capacities of humans and those of animals. Our minds have spawned civilizations and technologies that have changed the face of the Earth, whereas even our closest animal relatives sit unobtrusively in their dwindling habitats. Yet despite longstanding debates, the nature of this

File Type PDF

What Makes Us

apparent gap has remained unclear. What exactly is the difference between our minds and theirs? In *The Gap*, psychologist Thomas Suddendorf provides a definitive account of the mental qualities that separate humans from other animals, as well as how these differences arose. Drawing on two decades of research on

File Type PDF

What Makes Us

apes, children, and human evolution, he surveys the abilities most often cited as uniquely human -- language, intelligence, morality, culture, theory of mind, and mental time travel -- and finds that two traits account for most of the ways in which our minds appear so distinct: Namely, our open-ended ability to imagine and

File Type PDF

What Makes Us

Human
reflect on scenarios, and our insatiable drive to link our minds together. These two traits explain how our species was able to amplify qualities that we inherited in parallel with our animal counterparts; transforming animal communication into language, memory into mental time travel, sociality into mind
