AARP Digital Editions offer you practical tips, proven solutions, and expert guidance.

This book is intended to help satisfy an urgent requirement for up-to-date comprehensive texts at graduate and senior undergraduate levels on the subjects in non-destructive testing (NDT). The subject matter here is confined to electrical and magnetic methods, with emphasis on the widely used eddy current and magnetic flux leakage methods (including particle inspection), but proper attention is paid to other techniques, such as microwave and AC field applications, which are rapidly growing in importance. Theoretical analyses relating to the various methods are discussed and the depths of presentation are often governed by whether or not the information is readily available elsewhere. Thus, for example, a considerable amount of space is devoted to eddy current theory at what the author considers to be a reasonable standard and not, as usually experienced, in either a too elementary manner or at a level appreciated only by a postgraduate theoretical physicist. The inclusion of the introductory chapter is intended to acquaint the reader with some of the philosophy of NDT and to compare, briefly, the relative performances of the more important methods of testing.

Due to the level of detail, the images are best viewed on a tablet. All the techniques you need to become an expert navigator.

A lavishly illustrated, full-color companion to Scott Westerfeld's New York Times bestselling Leviathan trilogy. A must-have for any fan of Scott Westerfeld's Leviathan trilogy, The Manual of Aeronautics is an illustrated guide to the inner workings of the Darwinist and Clanker powers. Loaded with detailed descriptions and elaborate, four-color illustrations of Darwinist beasts and Clanker walkers, weapons, transport, and uniforms, this manual highlights the international powers that Deryn and Alek encounter throughout their around-the-world adventures. This guide draws back the curtain and reveals the inner depths of Westerfeld's fascinating alternative world.

In the picturesque town of Serendipity, New York, three siblings have grown up in the shadow of their proud and respected police chief father. But what do love, fate, and fortune have in store for the next generation of Serendipity's finest? Always feeling like the odd man out in his family, Michael Marsden wanted to make it on his own. So he escaped Serendipity to become an undercover cop in Manhattan, where the Marsden name wasn't known. But Michael's independence is compromised when he returns home to replace his sick father as chief of police. Back in the shadow of his family, he's as lost and restless as ever, until he's challenged by someone he never anticipated. Cara Hartley is the Serendipity cop with whom Mike had a one night stand three months earlier. Neither expected anything more but fate has other things in store. When Mike returns as Cara's boss, the sexual tension between them is impossible to ignore—and the unexpected emotional connection continues to grow. But Cara's a small town girl while Mike has a wanderer's blood in his veins. Both are convinced a future together is impossible. Until Mike's real father's secrets come back to haunt him and he realizes there are some things worth staying and fighting for. Including Cara.

Strip it of anything not needed for speed, power, and striking looks, then drape it in rich colors and chromeQand suddenly a motorcycle becomes a chopper. What was once considered an outlaw ride has now become a luxury item and a mainstream obsession. "Choppers: Heavy Metal Art" explores the many styles of choppers and bobbers and the builders behind them. 0-7603-2053-5\$40.00 / MBI Publishing

This new edition of the Oxford French Mini Dictionary offers up-to-date coverage of all the essential day-to-day vocabulary with over 40,000 words and phrases and 60,000 translations. Now in colour and with an extended phrasefinder, this dictionary is easy to use and ideal for travel and quick reference. The latest words in each language have been added, reflecting all aspects of life today, from computing and technology to lifestyle and business.The newly updated centre section comprises an easy-to-use phrasefinder with superfast access to all the words and expressions for everyday situations - shopping, travelling, asking for directions, or finding a place to stay. The conversion charts for distance, weights and measures, and clothing and shoe sizes make travelling abroad easier than ever before. New guides to roadsigns and a new section on health and beauty make this compact and portable dictionary ideal for holiday makers and travellers, as well as general users andbusiness people.

"Hello, my name is Thomas Thwaites, and I have made a toaster." So begins The Toaster Project, the author's nine-month-long journey from his local appliance store to remote mines in the UK to his mother's backyard, where he creates a crude foundry. Along the way, he learns that an ordinary toaster is made up of 404 separate parts, that the best way to smelt metal at home is by using a method found in a fifteenth-century treatise, and that plastic is almost impossible to make from scratch. In the end, Thwaites's homemade toaster—a haunting and strangely beautiful object—cost 250 times more than the toaster he bought at the store and involved close to two thousand miles of travel to some of Britain's remotest locations. The Toaster Project may seem foolish, even insane. Yet, Thwaites's quixotic tale, told with self-deprecating wit, helps us reflect on the costs and perils of our cheap consumer culture, and in so doing reveals much about the organization of the modern world.

A collections of stories and recipes from renowned Georgia chef Vera Stewart

"In Hostile Red" by Joseph A. Altsheler. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read.
