Praise for Happiness Beyond Thought "Husband, father, scientist, military officer, and senior executive in industry and academia, Gary Weber has led a full and successful worldly life. Throughout all of this, Gary has relentlessly pursued a path of practice and inquiry in order to understand life and achieve enlightenment. It is rare to find one who has reached this goal, and rarer still to find such a one who has been so immersed in worldly life. With this book, Gary has successfully integrated his profound realization with traditional non-dualistic teachings, as well as insights from Zen Buddhism and modern brain research, into a practical path that uses Yoga's time-tested practices of asana, pranayama, chanting and meditation to illumine a path to enlightenment for the modern reader." -Gary Kraftsow, author of Yoga for Wellness and Yoga for Transformation "Gary Weber offers a treasure chest of practices for the

serious practitioner seeking liberation. On your own journey towards awakening, savor these simple, easy to follow practices culled from Weber's study with his primary teacher Ramana Maharshi, his on-going exploration of Zen meditation practice, and the life-enhancing results of his experiments on the laboratory floor of his yoga mat." -Amy Weintraub, author of Yoga for Depression

The autobiography of Pandit Rajmani Tigunait. Provides tremendous insights to Eastern culture and traditions.

Not another translation but a highly readable and in-depth exploration of select passages from this essential classical text as a key to the complete path of yoga "The fruit of a lifetime of inquiry and practice, this is a book that the world needs." --Mark Singleton, author of Yoga Body and Roots of Yoga "Unassuming, generous and brilliant, Dave and Ranju teach from the heart with wit and wisdom." --Tara Fraser, Director Yoga Junction, author Yoga for You and Yoga Bliss Understanding Patanjali's Yoga Sutras is the key to understanding yoga itself, and yet relatively few of today's practitioners know how to apply these ancient Sanskrit aphorisms to contemporary life. Ranju Roy and David Charlton focus on 18 of the most important sutras and show how each one illuminates the relationship between the body, the breath, and the mind. The authors examine the interplay of three key terms: support, direction, and space. They suggest that only by taking "support" can you establish a clear direction; and once a direction is established then space can open up. This formula can be applied as successfully to the body (in asana) as to the breath (in pranayama) and the mind (through meditation). Embodying the Yoga Sutras is a practical and a deeply philosophical book.
